Subject: Response to Hazardous Waste Inspection Report 05/24/17 - Univar, Jacksonville - FLO 000 596 866
Date: Friday, June 9, 2017 10:01:03 AM

Ms. Mitchell,

Univar submits the following in response to the violation in the subject report.

Type: Violation

Rule: **62-710.510(1)**

Response: Univar respectfully will utilize DEP Form 62-710.901(2) moving forward to alleviate any confusion in recordkeeping concerning Used Oil and Used Oil Filters.

Additionally, in response to the Area of Concern within the body of the Record Review section of the report, Univar has begun and will continue to work with the State of FL on coming to a resolution on the halogen testing issue that is satisfactory to both FL DEP and Univar. Erik Otto will be leading the effort from the Univar side.

Best Regards,

Scott Stevens
