Hazardous Waste

Dear Ms. Jurczak:

Safety Kleen Corporation - Orange Park
FLD 980 847 214
Clay County - Hazardous Waste
Construction Permit #HC 10-128082

This letter acknowledges receipt of your letter dated October 5, 1987, requesting changes in Specific Conditions No. 36 and 37.c of the above-referenced permit. Florida Administrative Code Rule 17-30.280 (copy attached), authorizes the Department to establish any permit conditions which are necessary to assure compliance with applicable regulations and to protect human health and the environment.

To be consistent with the Operation Permit (HO 10-119940) issued to your facility and for better compliance, the Department does not see any need to change Specific Condition No. 37.c. This specific requirement is included in all the storage permits issued in the State of Florida.

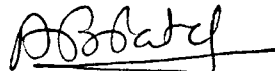

The Department has decided to modify Specific Condition No. 36 as follows:

In accordance with Section I.E.2. of the permit application and 40 CFR 264.175(b)(5), the permittee shall remove spilled or leaked waste and accumulated precipitation from the collection area within 24 hours during weekdays and by the following Monday if it occurs on a weekend. Recovered waste must be drummed up and managed as a hazardous waste.

Letter to Ms. Ellen J. Jurczak, P.E.
October 8, 1987
