August 10, 1998

The Department has recently received correspondence regarding a merger between Safety-Kleen Corporation and LES Acquisition, Inc., a subsidiary of Laidlaw Environmental Services, Inc. After a review of available information, the Department believes that the merger of the assets of the above companies has resulted in the creation of a new corporate entity named Safety-Kleen Systems, Inc. The Department also believes that the merger has resulted in a change of corporate ownership of the above facilities. Hazardous waste facility permits issued under the authority of Florida Statute 403.722 require submittal of an Application for Transfer of Permit prior to a change in ownership of these facilities. Within thirty (30) days receipt of this letter, please submit to the letterhead address Application for Transfer of Permit for each of the existing hazardous waste treatment, storage and disposal permits that are issued to the fourteen facilities listed above. Rule 62-730.300, Florida Administrative Code, (F.A.C.), requires Applications for Permit Transfer to include:

- Properly completed forms (enclosed):
 - Application for Transfer of Permit 62-1.201(1), labeled as DER form 17-1.201(1)
 - Application for Hazardous Waste Facility Permit Part I 62-730.900(2) (a)
 - Application for Hazardous Waste Facility Permit Certification 62-730.900(2) (d)
- A certification stating that no changes are to be made which would require modification of the permit; or a proposal for modification.
- A demonstration that the new owner/operator meets the financial responsibility requirements adopted in Rule 62-730.180, F.A.C.
- A \$50.00 permit transfer fee required under Rule 62-4.050(4) (r) (3), F.A.C.

Please know that the Department is committed to working with Safety-Kleen Systems, Inc. and shares your goal of smooth and timely permit transfers. If you have any questions, please contact me at (850) 488-0300.

Sincerely,

Ainè Marie Ryan
