Attention: Mr. John M. Jones, P.E.
Supervisor, Hazardous Waste Section

Subject: Response to First Notice of Deficiency
Part B Permit Renewal Application and Revision 9
Safety-Kleen Corp.
Boynton Beach, Florida Service Center
HO 50-287405; FLD 984167791
Delta Project No. B095-061

Dear Mr. Jones:

This correspondence is in response to Item #1 of your letter dated June 7, 1996, which presented an itemized Notice of Deficiency (NOD) for the review of the hazardous waste operation permit renewal received by your office on April 8, 1996. The following is our response to this item cited in the NOD:

1. General - Throughout the permit application, the notation "No changes subsequent to most recent approved modification to the permit" is used. Replace this language with the applicable date of the permit modification and include as an attachment or addendum all the modifications referenced. The Department will replace the sections modified from the permit application dated April 23, 1991. When coupled with the addendum mentioned above, the resulting document will be a "stand-alone" permit renewal application.

Delta Environmental Consultants, Inc. (Delta), has reviewed the available files for the Safety-Kleen RCRA Part B permit and has constructed an outline of the sections which have been modified subsequent to the permit application dated April 23, 1991. The attached summary lists each section which has been modified, along with the most recent approved modification date. If a section of the permit is not included on the summary, this indicates the section has not been modified since the initial application. The revised material has been provided to the Florida Department of Environmental Protection previously, in addition to Instructions for Updating the Operating Permit Application.

We hope that this information addresses this comment to your satisfaction. If you have any questions or require additional information, please do not hesitate to call us at (813) 289-5218.

Sincerely,

DELTA ENVIRONMENTAL CONSULTANTS, INC.

W.D. Phelps, P.E.
