RE: Operating Permit Application, Safety-Kleen Corp.--Boynton Beach Facility

Dear Mr. McGee:

Enclosed you will find the three figures (II.B.3-5, II.B.3-6, and II.B.3-7) which were not provided with the original operating permit application. Also enclosed are corrected pages for the permit application.

- The original page 10 of 29 had the wrong county listed. The enclosed page correctly lists the county as Palm Beach.
- The home phone number for the primary emergency coordinator and the identity and phone numbers for the alternate emergency coordinator have been changed (Attachment II.A.4(b) page iii, and Attachment II.A.4(b) page II.A.4(b)-3C).
- The footnote on Table II.A.4(e)-1 incorrectly identified the job titles as those present at the Port Charlotte facility, rather than the Boynton Beach facility.
- Attachment II.A.4(b), pages II.A.4(b)-13 and II.A.4(b)-14, and Table II.A.4(b)-3; and Attachment II.A.4(d), Table II.A.4(d)-1 have been modified to include the explosion-proof intercom installed at the facility.

In addition to the items listed above, please add the attached Appendix A to the permit application. Appendix A describes how Safety-Kleen is addressing the newly adopted Subpart BB.
