Re: Tampa Facility (FLD 980847271)
Construction Permit Application HC29-118986

Dear Mr. Tala:

As you requested during your recent telephone call, I have revised the subject application as follows:

1. A professional engineer registered in Florida has been asked to certify the drawings.
2. The EPA I.D. number on the application form has been corrected. ✓
3. The reference to underground tanks has been deleted and the storage tank is indicated as being 15,000 gallons. ✓
4. The drum storage areas, their secondary containment systems and the wastes stored are described in greater detail. Calculations for the secondary containment volumes are also included.

You should note that new containers have been added to the application and the text has been revised to reflect this.

Please call me if you have any questions or require further information.

Sincerely yours,

Ellen J. Junczak
