PERMIT/CERTIFICATION

Permit No.: HC29-118986
EPA I.D. Number: FLD 980 847 271
County: Hillsborough
Date of Issue: September 28, 1988
Expiration Date: December 28, 1988
Latitude: 27°55'21"N
Longitude: 82°23'40"W
Section / Township / Range
27 29S 19W
Project: Construction of a
Hazardous Waste Tank
and Container Storage
Facility

This permit is issued under the provisions of Chapter 403.722, Florida Statutes, and Florida Administrative Code Rules 17-30. The above named permittee is hereby authorized to construct the facility shown on the application and approved drawings, plans, and other documents, attached hereto or on file with the Department and made a part hereof and specifically described as follows:

The facility covered by this permit consists of a tank and two sections in a totally enclosed container storage buildings to store hazardous wastes.

The proposed tank of 15,000-gallon capacity is an outdoor, aboveground, vertical tank, 23 feet and 3 inches in height, and 10 feet and 6 inches in diameter. The unit will be fabricated of mild steel with a 0.25 inch minimal wall thickness, and surrounded by a 30 inch concrete dike as a secondary containment. Product stored in the tank is mineral spirit. This waste is hazardous under federal and state law due to the characteristics of ignitability (D001) and possibly EP toxic for cadmium and lead (D006 and/or D008).

The container storage building consists of two sections: A and B. The drum storage areas for spent solvents have a capacity for holding 75,403 gallons. The containment system consists of 4 inches by 6 inches of concrete curbing, trenches and sumps which prevent both run-on and run-off. The drum storage areas occupy portions of building areas which have a concrete floor, berms, and interceptor trenches to form a spill containment system. The capacities of the containment system in each section are designed to be greater than 10% of the total liquid storage capacity in the drum storage areas.

PERMITTEE:
Safety-Kleen Corporation

Permit/Certification No: HC29-118986
Project: Construction of a Hazardous
Waste Tank and Container
Storage Facility

Drum Storage Areas:

The south west corner of storage building section A is approximately 40 feet long by 29 feet wide with capacity for:

- Two hundred fifty-two (252) 16-gallon immersion cleaner drums of listed waste from non-specific sources (F001, F002 and F004).
- Eighteen (18) 16-gallon mineral spirit dumpster mud drums classified hazardous waste due to ignitibility and EP toxicity (D001 and D008),
- Fifty-four (54) 16-gallon drums, sixty (60) 30-gallon drums and boxes (16" x 16" x 15") of dry cleaning waste from non-specific sources (F002).

Storage building section B is approximately 100 feet long by 80 feet wide, with three storage units:

- Unit 1, located at the south west corner is approximately 39 feet by 42 feet, 8 inches, designed to comply with NFPA requirement for a Class I storage facility, and will be used for future storage of paint waste and paint equipment in 16-gallon drums and 5-gallon pails. These wastes are considered to be ignitable and/or listed waste from non-specific sources (D001, D006, D007, D008, F003 and F005).
- Unit 2, located at the north of unit one, with capacity for 5,670 gallons of used immersion cleaner stored in 16-gallon drums considered to be listed waste from non-specific sources (F001, F002 and F004).
- Unit 3, located at the east side of unit one and two, with capacity for six hundred thirty (630) 30-gallon drums and two hundred fifty (250) 30-gallon drums of dry cleaning waste considered to be listed waste from non-specific sources (F002).

The following submittals were utilized in the preparation of this document and are considered a part thereof:

- The construction permit application submitted April 9, 1986.
- Information received with letter dated June 1, 1988 and received June 2, 1988.
- Information received April 15, 1988.
- Information provided with letter dated December 11, 1986 and received on January 2, 1987.

PERMITTEE: Permit/Certification No: HC29-118986

PERMIT/CERTIFICATION NO: HC29-118986
Project: Construction of a Hazardous
Waste Tank and Container
Storage Facility

GENERAL CONDITIONS:

1. The terms, conditions, requirements, limitations, and restrictions set forth herein are "Permit Conditions" and as such are binding upon the permittee and enforceable pursuant to the authority of Sections 403.161, 403.727, or 403.859 through 403.861, Florida Statutes. The permittee is hereby placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of the "Permit Conditions" by the permittee, its agents, employees, servants or representatives.

2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.

3. As provided in Subsections 403.087(6) and 403.722(5), Florida Statutes, the issuance of this permit does not convey any vested rights or any exclusive privileges. Nor does it authorize any injury to public or private property or any invasion of personal rights, nor infringement of federal, state or local laws or regulations. This permit does not constitute a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in the permit.

4. This permit conveys no title to land or water, does not constitute state recognition or acknowledgement of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the state. Only the Trustees of the Internal Improvement Trust Fund may express state opinion as to title.

5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, plant or aquatic life or property and penalties therefore caused by the construction or operation of this permitted source, nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by any order from the Department.

PERMITTEE:
Safety-Kleen Corporation

PERMIT/CERTIFICATION NO: HC29-118986
Project: Construction of a Hazardous
Waste Tanks and Container
Storage Facility

GENERAL CONDITIONS: (cont'd)

6. The permittee shall at all times properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed or used by the permittee to achieve compliance with the conditions of this permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.

7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law, access to the premises, at reasonable times, where the permitted activity is located or conducted for the purposes of:

a. Having access to and copying any records that must be kept under the conditions of the permit;

b. Inspecting the facility, equipment, practices, or operations regulated or required under this permit; and

c. Sampling or monitoring any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately notify and provide the Department with the following information:

(a) a description of and cause of non-compliance; and

(b) the period of non-compliance, including exact dates and times; or, if not corrected, the anticipated time the non-compliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the non-compliance.

The permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or revocation of this permit.

PERMITTEE:
Safety-Kleen Corporation

PERMIT/CERTIFICATION NO: HC29-118986
Project: Construction of a Hazardous
Waste Tank and Container
Storage Facility

GENERAL CONDITIONS: (cont'd)

9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source, which are submitted to the Department, may be used by the Department as evidence in any enforcement case arising under the Florida Statutes or Department rules, except where such use is proscribed by Section 403.73 and 403.111, Florida Statutes.

10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance, provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules.

11. This permit is transferable only upon Department approval in accordance with Florida Administrative Code Rules 17-4.12 and 17-30.300, as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the transfer is approved by the Department.

12. This permit is required to be kept at the work site of the permitted activity during the entire period of construction or operation.

13. This permit also constitutes:

- () Determination of Best Available Control Technology (BACT)
- () Determination of Prevention of Significant Deterioration (PSD)
- () Certification of Compliance with State Water Quality Standards (Section 401, PL 92-500)
- () Compliance with New Source Performance Standards

14. The permittee shall comply with the following monitoring and record keeping requirements:

a. Upon request, the permittee shall furnish all records and plans required under Department rules. The retention period for all records will be extended automatically, unless otherwise stipulated by the Department, during the course of any unresolved enforcement action.

Safety-Kleen Corporation

PERMIT/CERTIFICATION NO: HC29-118986
Project: Construction of a Hazardous
Waste Tank and Container
Storage Facility

GENERAL CONDITIONS: (cont'd)
14. (con't)

b. The permittee shall retain at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation), copies of all reports required by this permit, and records of all data used to complete the application for this permit. The time period of retention shall be at least three years from the date of the sample, measurement, report or application unless otherwise specified by Department rule.

c. Records of monitoring information shall include:

- the date, exact place, and time of sampling or measurements;
- the person responsible for performing the sampling or measurements;
- the date(s) analyses were performed;
- the person responsible for performing the analyses;
- the analytical techniques or methods used; and
- the results of such analyses.

15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law which is needed to determine compliance with the permit. If the permittee becomes aware that relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be submitted or corrected promptly.

16. In the case of a hazardous waste facility permit, the following permit conditions shall also apply:

a. The permittee will submit the following reports to the Department:

- (1) Manifest discrepancy report: If a significant discrepancy in a manifest is discovered, the permittee must attempt to reconcile the discrepancy. If not resolved within 15 days after receiving the waste, the permittee shall immediately submit a letter report including a copy of the manifest to the Department.
- (2) Unmanifested waste report: The permittee shall submit an unmanifested waste report to the Department within 15 days of receipt of unmanifested waste.

PERMIT/CERTIFICATION NO: HC29-118986
Project: Construction of a Hazardous
Waste Tank and Container
Storage Facility

GENERAL CONDITIONS: (cont'd)

16.a. (cont'd)

- (3) Annual report: An annual report covering facility activities during the previous calendar year must be submitted in accordance with Florida Administrative Code Rule 17-30.

b. Notification of any non-compliance which may endanger public drinking water supplies, or the occurrence of a fire or explosion from the facility which could threaten the environment or human health outside the facility, shall be verbally submitted to the Department within 24 hours and a written submission provided within 5 days. The verbal submission within 24 hours shall contain the name, address, I.D. number and telephone number of the facility and owner or operator, the name and quantity of materials involved, the extent of injuries (if any), an assessment of actual or potential hazards, and the estimated quantity and disposition of recovered material. The written submission shall contain the following:

- (1) a description of any cause of non-compliance; and
- (2) if not corrected, the anticipated time the non-compliance is expected to continue and steps being taken to reduce, eliminate, and prevent recurrence of the non-compliance.

c. Reports of compliance or non-compliance with, or any progress reports on, requirements contained in any compliance schedule of this permit shall be submitted no later than 14 days following each schedule date.

d. All reports or information required to be submitted to the Department by a hazardous waste permittee shall be signed by a person authorized to sign a permit application.

CERTIFICATE OF SERVICE

This undersigned duly designated deputy clerk hereby certifies that this NOTICE OF PERMIT and all copies were mailed before the close of business on Sept 28, 1988 to the listed persons.

PERMITTEE:
Safety-Kleen Corporation

Permit/Certification No: HC29-118986
Project: Construction of a Hazardous
Waste Tank and Container
Storage Facility

SPECIFIC CONDITIONS:

1. All construction shall be as specified in the complete permit application. Any changes or deviations in the plans shall be submitted to the Department in writing and approved by the Department.
2. The facility shall be constructed to comply with all applicable standards contained in 40 CFR Part 264 as adopted in Section 17-30.180, Florida Administrative Code, (F.A.C.).
3. Within thirty (30) days of issuance of this permit, the permittee shall submit a Certification of Construction certifying that the hereby permitted unit has been constructed as specified in the application, this permit and approved modifications as described in specific condition #1. This certification shall comply with Rule 17-30.220(5), F.A.C. The permittee shall also submit to the Department "as built" drawings, including location of all safety equipment, security devices, communication devices, water for fire control, spill control equipment, etc.
4. The permittee shall maintain financial assurances for closure (40 CFR 264.143) and financial responsibility for sudden accidental occurrences (40 CFR Part 264.147(a)).
5. The Department may modify this permit in accordance with the provisions of 17-30.290(1)(b), F.A.C.
6. Within thirty (30) days of issuance of this permit the permittee shall submit to the Department a written assessment in accordance with 40 CFR Part 264.192, that the tank system has been constructed to ensure sufficient structural integrity, and is acceptable for the storage of hazardous waste. The assessment shall show that the foundation, structural support, seams, connections, and pressure controls are adequately designed and constructed, and that the tank system has sufficient structural strength. The assessment shall comply with the certification requirements of 17-30.220(5) F.A.C.

SPECIFIC CONDITIONS: (cont'd)

7. Together with the Certification of Construction, the permittee shall certify that the secondary containment meets the requirement of 40 CFR Part 264.193, and that it was constructed in accordance with Section I.E.2.C(4), page IE2-10 of the permit application. The certification shall comply with Rule 17-30.220(5) F.A.C.

8. The permittee shall install the controls required in 40 CFR Part 264.194(b).

9. Within sixty (60) days of issuance of this permit, the permittee shall complete the application for an operating permit for this facility. The complete application shall include the following:

- a. All of the information approved in the construction permit application.
- b. Additional information requested in this permit.
- c. Change required in the personnel training plan, the inspection schedule, the contingency plan, etc., which may be required as a result of any modifications.

10. An operation permit for storage in the hereby permit unit shall not be issued unless the Certification of Construction has been received and approved by the Department.

11. All documents submitted pursuant to the conditions of this permit shall be accompanied by a cover letter stating the name and date of document submitted, the number(s) of the specific condition(s) affected, and number and project name of the permit involved.

12. All submittals modifying major engineering features of the hazardous waste storage unit shall be worded, signed and certified by a qualified, independent and professional engineer registered in the State of Florida in accordance with DER Form 17-30.401(2), certification section, pages 49 and 50, item 4.
