In an effort to provide a more efficient service, the Florida Department of Environmental Protection's Hazardous Waste Program and Permitting section is forwarding the attached document to you by electronic correspondence "e-correspondence" in lieu of a hard copy through the normal postal service.

We ask that you verify receipt of this document by sending a "reply" message to epost_hwrs@dep.state.fl.us. (An automatic "reply message" is not sufficient to verify receipt). If your email address has changed or you anticipate that it will change in the future, please advise accordingly in your reply. You may also update this information by contacting Kim Thursby at (850) 245-8792.

The attached document is in "pdf" format and will require Adobe Reader 6 or higher to open properly. You may download a free copy of this software at www.adobe.com/products/acrobat/readstep2.html.

Your cooperation in helping us affect this process by replying as requested is greatly appreciated. If you should have any questions about the attached document(s), please direct your questions to the contact person listed in the correspondence.

RE: Renewal Application for Used Oil and Solid Waste Operating Permit
Duval County – Hazardous Waste
Facility Name: Liquid Environmental Solutions of Florida, LLC
EPA I.D. No.: FLD 981 928 484
Current Permit Number: 72815-016-HO; 72815-017-SO
DEP Application No.: 72815-017-HO; 72815-018-SO

Dear Mr. Turovsky:

Your permit renewal application and additional information documentation dated August 18, 2017 and December 4, 2017 has been reviewed and found to be substantially complete. The Department has one minor clarification to add regarding your additional information documentation for Comment No. 7c - LES Closure Plan Soil and Groundwater Sampling Protocols. Please note this requirement for future reference and closure plan amendments. Rule 62-780.600(5)(c)1, F.A.C. Site Assessment requires that sampling intervals be collected from land surface to six inches, six inches to two feet, and two-foot intervals thereafter to the extent necessary to define soil contamination. Be advised that more detail regarding proposed sampling locations may be required at the time of closure.

For planning purposes, I intend to send you a courtesy copy of the draft permit for your review and comments no later than January 2018. We will make every effort to issue our final agency action as quickly as possible.

If you have any questions, please contact Bradley Buselli by telephone at 850-245-8989 or by e-mail at Bradley.Buselli@floridadep.gov.

Sincerely,

A handwritten signature in cursive script that reads "Bryan Baker".

Bryan Baker, P.G.
Environmental Administrator
Florida Department of Environmental Protection
