Cheryl,

Please use this email as our official reply to violation for rule 279.44(a) for halogen testing of used oil. Since receiving our Compliance Assistance Offer Letter on Dec 6th, 2017, we have purchased Chlor D Tect 1000 test kits. We have not picked up used oil since receiving the kits but will start testing all used oil we pick up moving forward with the Chlor D Tect test kits. Findings will be written in on the waste manifests used for the oil disposal.

Please let me know if we can provide any additional information.

Respectfully,

Ryan Harris
