## **Emergency Response and Training Solutions**

Pursuant to Florida state regulations, the release was reported to the Florida State Warning Point. Incident number 2011-6023 was issued to this report.

### **Corrective Action:**

On September 29, 2011, Raider Environmental arrived onsite for cleanup activities. Absorbent pads were utilized to remove the product from the lid of the drum. The damaged container was then over-packed for continued transportation.

### **Waste Disposal:**

The waste generated was combined with similar materials to be disposed of at a later date by Raider Environmental.

### **Conclusion and Recommendations:**

No evidence was found that suggests any significant environmental impact remains on the site following corrective action. ERTS recommends that the incident be closed and that no further assessment is needed.
