RE: Consent Orders; Safety-Kleen Corp., Miami Facility; OGC File No. 92-0272; Boynton Beach Facility; OGC File No. 92-0271.

Dear Mr. San Agustin:

Enclosed for your review and signature are copies of the Consent Orders redrafted by the Department in the above-styled cases. The Consent Orders represent the resolutions acceptable to the Department in this matter.

The previous Consent Orders contained a paragraph (#11) in which the Department, upon execution of the Consent Orders, was to waive its right to seek judicial imposition of civil or criminal penalties. Upon discussions with our counsel, we have decided to retain our right for such action by eliminating the paragraph from the revised Consent Orders.

Please review, sign and return the Consent Orders within twenty (20) days from the date of receipt to this office for Department signature and distribution. Should you have any questions concerning the Consent Orders please contact Mr. Tim Gray at 407/433-2650.

Sincerely,

Donald B. White, P.E.  
Acting Director of District Management

CONSENT ORDER

Pursuant to the provisions of Sections 403.121(2) and 120.57(3), Florida Statutes (F.S.), and Florida Administrative Code (F.A.C.) Rule 17-103.110, this Consent Order is entered into between the State of Florida Department of Environmental Regulation ("Department"), and Safety-Kleen Corporation ("Respondent") to reach settlement of certain matters at issue between the Department and Respondent.

The Department finds and Respondent admits the following:

1. The Department is the administrative agency of the State of Florida having the power and duty to control and prohibit pollution of air and water in accordance with Chapter 403, F.S., and rules promulgated thereunder. The Department has jurisdiction over the matters addressed in this Consent Order.

2. Respondent is a Wisconsin corporation that owns and operates a virgin solvent distribution and waste storage facility located at 7875 Northwest 54th Street, Miami, Dade County, Florida 33166 described specifically as Latitude 25° 49' 24", Longitude 80° 11' 55".

3. On November 4, 1991, representatives of the Department and USEPA conducted a Hazardous Waste Inspection at Respondent's facility, and subsequently prepared a Hazardous Waste Inspection Report documenting permit violations associated with the management of Fluid Recovery Service (FRS) wastes.

THEREFORE, having reached resolution of this matter pursuant to F.A.C. Rule 17-103.110(3), Respondent and the Department mutually agree and it is

ORDERED:

4. Respondent shall submit a written request for a major modification of the Miami facility operating permit (H0-13-122454). The request must include all applicable information regarding Fluid Recovery Service (FRS) waste and the incorporation of the management of this wastestream within facility design and operating processes.

5. This Consent Order, when executed, will authorize Safety-Kleen Corp. to manage FRS wastes at the Miami facility until such time as the Department takes final action on the permit modification request. The Respondent must manage the FRS waste in accordance with the following provisions :

(a) FRS waste must be managed as a permitted wastestream, in compliance with general Conditions 1-16 and Specific Conditions 1-28 of Operating Permit # H0-13-122454 and all provisions of 40 CFR Part 264 Subpart I requirements.

(b) FRS wastes are to be stored in designated container storage areas, total storage capacity not to exceed 4,214 gallons of combined wastestreams.

(c) FRS wastes are not to be managed as transfer wastes since physical constraints of Miami facility preclude the operation of a transfer facility. Storage of FRS wastes in vehicles is prohibited. Direct truck to truck transfer of FRS wastes for transport to the recycling center must be completed within one (1) hour of arrival of FRS wastes at facility or FRS wastes must be placed in container storage area. These activities must be documented by operation log and verified by the branch manager.

(d) Because FRS wastes are being managed as a permitted wastestream (as opposed to transfer station wastes), all manifests for FRS wastes must be terminated at the Miami facility, without regard to the length of time the wastestream is staged at the facility.

6. Within 30 days of execution of this Consent Order, Respondent shall pay the Department \$500.00 for costs and expenses incurred by the Department during the investigation of this matter and the preparation and tracking of this Consent Order. Payment shall be made by cashier's check or money order. The instrument shall be made payable to the Department of Environmental Regulation and shall include thereon the OGC number assigned to this Order and the notation "Pollution Recovery Fund". The payment shall be sent to the Department's Southeast Florida District Office, 1900 South Congress Avenue, Suite A, West Palm Beach, Florida 33406.

7. Respondent shall henceforth comply with all applicable Hazardous Waste management regulations as set forth in F.A.C. Chapter 17-730 and 40 C.F.R. Parts 260 - 268, and the general and specific permit conditions of operating permit number H013-122454.

8. Persons who are not parties to this Consent Order but whose interests are affected by this Consent Order have a right, pursuant to Section 120.57, Florida Statutes, to petition for an administrative hearing on it. The Petition must contain the information set forth below and must be filed (received) at the Department's Office of General Counsel, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400; within 21 days of receipt of this notice. A copy of the Petition must also be mailed at the time of filing to the District Office named above at the address indicated. Failure to file a petition within the 21 days constitutes a waiver of any right such person has to an administrative hearing pursuant to Section 120.57, F.S.

The petition shall contain the following information:

(a) The name, address, and telephone number of each petitioner; the Department's Consent Order identification number and the county in which the subject matter or activity is located;

(b) A statement of how and when each petitioner received notice of the Consent Order;  
(c) A statement of how each petitioner's substantial interests are affected by the Consent Order; (d) A statement of the material facts disputed by petitioner, if any; (e) A statement of facts which petitioner contends warrant reversal or modification of the Consent Order; (f) A statement of which rules or statutes petitioner contends require a reversal or modification of the Consent Order; (g) A statement of the relief sought by petitioner, stating precisely the action petitioner wants the Department to take with respect to the Consent Order.

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this Notice. Persons whose substantial interests will be affected by any decision of the Department with regard to the subject Consent Order have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 21 days of receipt of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, F.S., and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, F.A.C.

A party who is adversely affected by this Consent Order is entitled to Judicial Review pursuant to Section 120.68, F.S. Review proceedings are governed by the Florida Rules of Appellate Procedure.

Such proceedings are commenced by filing one copy of a Notice of Appeal with the Agency Clerk of the Department of Environmental Regulation and a second copy, accompanied by filing fees prescribed by law, with the First District Court of Appeal or with the District Court of Appeal in the Appellate District where the party resides. The Notice of Appeal must be filed within 30 days of rendition of the Order to be reviewed.

9. Respondent waives its right to an administrative hearing on the terms of this Consent Order under Section 120.57, Florida Statutes, and its right to appeal this Consent Order pursuant to Section 120.68, F.S.

10. Respondent shall allow authorized representatives of the Department access to the property at reasonable times for purposes of determining compliance with this Consent Order and with the rules and regulations of the Department.

11. Nothing herein shall be construed to limit the authority of the Department to undertake any action against any settling Respondent in response to or to recover the costs of responding to conditions at or from the site which may present an imminent hazard to the public health, welfare or the environment.

12. Entry of this Consent Order does not relieve Respondent of the need to comply with the applicable federal, state or local laws, regulations, or ordinances.

13. The terms and conditions set forth in this Consent Order may be enforced in a court of competent jurisdiction pursuant to Sections 120.69 and 403.121, F.S. Failure to comply with the terms of this Consent Order shall constitute a violation of Section 403.161(1)(b), Florida Statutes.

14. Respondent is fully aware that a violation of the terms of this Consent Order may subject Respondent to judicial imposition of damages, civil penalties up to \$50,000 per offense, and criminal penalties. In the event it is necessary for the Department to seek judicial enforcement of this Consent Order, Respondents shall pay to the Department all investigative costs, court costs and expenses, as well as a reasonable attorney's fee for obtaining a judgement from the circuit court.

15. Respondent agrees to pay the Department stipulated penalties in the amount of \$100.00 per day for each and every day Respondent fails to timely comply with any of the requirements of paragraphs 4 and 5 of this Order. A separate stipulated penalty shall be assessed for each violation of this Order. Within 30 days of written demand from the Department, Respondent shall make payment of the appropriate stipulated penalties to "The Department of Environmental Regulation" by cashier's check or money order and shall include thereon the OGC number assigned to this Order and the notation "Pollution Recovery Fund". Payment shall be sent to the Department of Environmental Regulation, Southeast Florida District Office, 1900 South Congress Avenue, Suite A, West Palm Beach, Florida 33406. The Department may make demands for payment at any time after violations occur. Nothing in this paragraph shall prevent the Department from filing suit to specifically enforce any of the terms of this Consent Order.

16. The Department hereby expressly reserves the right to initiate appropriate legal action to prevent or prohibit future violations of applicable statutes, ordinances, or the rules promulgated thereunder not covered by the terms of this Consent Order.

17. No modification of the terms of this Consent Order shall be effective until reduced to writing and executed by the Respondent and the Department.

18. All reports, plans and data required by this Consent Order to be submitted to the Department should be sent to the Waste Programs Administrator, Enforcement Section, Florida Department of Environmental Regulation, 1900 South Congress Avenue, Suite A, West Palm Beach, Florida 33406.

19. This Consent Order is the final agency action of the Department pursuant to Section 120.69, F.S., and F.A.C. Rule 17-103.110(3), and it is final and effective on the date filed with the Clerk of the Department unless a Petition for Administrative Hearing is filed in accordance with Chapter 120, Florida Statutes. Upon the timely filing of a petition this Consent Order will not be effective until further order of the Department.
