**Subject:** Status Update and Field Activities Notification - Supplemental Site Assessment - Perma-Fix of Florida, Gainesville - Fac ID FLD 780 7111 071 (COM\_17680)

Mr. Buselli,

This is a follow-up to our telephone conversation earlier this week. As discussed, Trihydro has achieved significant progress in the supplemental assessment effort at the subject site. Upon receipt of the most recent sampling lab report, we noted that limited additional soil testing is necessary to establish the point of compliance in one area. We are currently scheduled to return to the facility on Tuesday, February 5, to collect those remaining samples. It is anticipated that the upcoming sampling results will confirm boundary definition, allowing us to conclude this phase of assessment and transmit the Supplemental Site Assessment Report to your attention for review. Upon receipt of the sample results, we will update you with our anticipated report submittal date.

Respectfully submitted,

**William C. (Bill) Kelly, PG**  
*Senior Project Manager*
