Attachments: UES P3 Proposal to offset Consent Order Penalty SCAN Version III.pdf

Importance: High

Beth – attached is the revised version that reflects no charge at McKay Bay for disposal. We'll submit monthly our scale tickets for FDEP / Port Authority records. If this proposal is acceptable, then we'll initiate buying an appropriate sign. We'll need some direction from the Department & PTB as to how the sign should look (text, logo's, etc.).

Thanks for your consideration.

Regards,
Ed Kinley

Hi Ed and Beth,

I just spoke with Debbie Evenson, Executive Director of Keep Tampa Bay Beautiful, and she confirmed that the City of Tampa donated the disposal costs to the KTBB Water Goat adoption program. She confirmed that they will continue to donate the disposal costs now that the Port is adopting the Water Goat.

Thanks you all for working with us on this. I think we will all be impressed with the amount of trash we remove from the Bay.

Sincerely,

Christopher J. Cooley
Port Tampa Bay

Beth – please see attached. I’m not familiar with ER Contractor rates. It’s not our fault that we are engaged in business that pays more both to the employee & our company providing our marine industry services. Nevertheless, I have reduced our per hour labor fee from \$40.00 to \$35.00. I additionally lowered our PPE expense from \$50.00 per tech to \$40.00 per tech.

As to disposal, I’ve asked Chris Cooley from the Port how this has been handled previously. I’m waiting on his reply. He is copied on this email. At this point, my assumption is the City will require payment. If they’ll waive it, then I’ll amend the proposal.

As to the volunteer students, the Port Authority is concerned about the long term risk of having uninsured folks performing a regular service for them. Chris Cooley intends to provide a formal contract / agreement to UES which will include our insurance responsibilities, and our indemnification of them as the service provider.

Regards,
Ed Kinley

Subject: Additional Information Request -In-Kind Proposal - OGC Case 18-1323

Dear. Mr. Kinley:

I have reviewed your in-kind proposal to assume maintenance of the McKay Bay Nature Park "Water Goat" debris elimination system. While this type of project is generally acceptable as an in-kind project, your proposed cost figures appear to be excessive.

In particular, your labor cost of \$40.00 per hour exceeds the contracted cost for general labor under the Department's contract for emergency response contractors. Please provide either a revised figure, or a justification for the higher figure, particularly since the system is currently being maintained by volunteer college students.

In addition, please provide justification for the costs of debris disposal. Are these costs currently being borne by the City of Tampa Solid Waste Department, Storm Water Department or other governmental agency? What is the justification for a private entity assuming these costs?

In accordance with Paragraph I.c. of Exhibit I, please respond to these items within 30 days of receipt of this message. The Department will review your response in accordance with the Exhibit. If you have any questions, please give me a call.

Thanks,

Elizabeth Knauss
