Re: Unmanifested Waste Report – Safety-Kleen Boynton Beach, FL (FLD984167791)

Dear Ms. Blandin:

Safety-Kleen Systems, Inc. is submitting an unmanifested waste report as required by 40 CFR 264.76 for a 1,000 gallon load of vacuum services waste shipped to the Safety-Kleen Boynton Beach facility. This material was brought back to the facility and comingled with other customer material in an on-site Frac Tank until shipment to our 3rd party waste water treatment disposal vendor, Liquid Environmental Solutions (LES), in Jacksonville, FL. This material was found to be non-conforming at LES on 3/28/19 and was rejected from the facility. Subsequent retain sample analysis performed on 4/8/19 by Advanced Environmental Laboratories, Inc. on behalf of Safety-Kleen identified the ABB Inc. Turbocharging waste received was non-conforming and the source of the non-conforming material. After being rejected from LES, all material related to this non-conforming waste event was shipped via manifest to an alternate permitted disposal facility (Clean Harbors El Dorado, AR ARD069748192).
