Workers' Comp Works For You

If you are injured on the job:

1. Notify your employer immediately to get the name of an approved physician. Workers' comp insurance may not pay injury promptly to your employer.
2. Notify the doctor and medical staff of the job so that bills may be properly filed.
3. If you have any problems with your claim or suffer excessive delays in treatment, contact the State of Florida's Division of Workers' Compensation at 1-800-342-1741.

UNEMPLOYMENT INSURANCE

To Employees:

Your Employer is required with the Florida Department of Revenue to have you file for Unemployment Insurance (UI) when you are laid off. Ask your employer for the Unemployment Insurance Program.

Unemployment Insurance (UI) is a benefit that provides temporary financial assistance to eligible workers who are unemployed through no fault of their own. UI is a state program that is funded by a tax on employers. The amount of the benefit is based on your previous earnings and the length of time you have been employed by your employer.

Eligibility for UI benefits is based on the following criteria:

- 1. You must have earned a minimum amount of wages during the base period.
- 2. You must have been laid off through no fault of your own.
- 3. You must be able and ready to accept suitable work.
- 4. You must be actively seeking work.

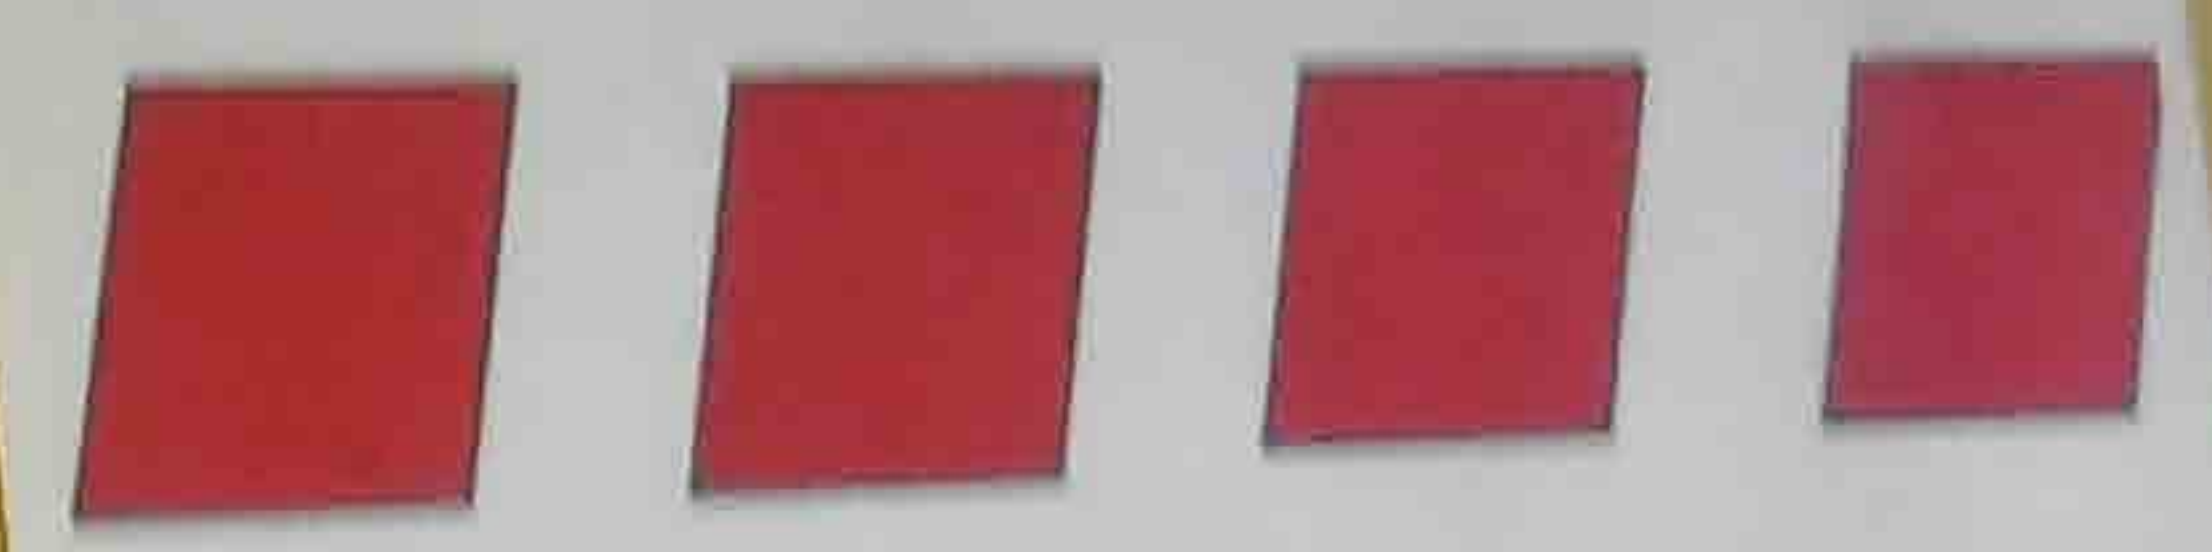

Benefits are paid weekly for up to 26 weeks. The amount of the benefit is based on your previous earnings. The maximum benefit is \$275 per week.

For more information, contact the Florida Department of Revenue, Division of Unemployment Insurance, at 1-800-342-1741.
