Dear Mr. Fernandez:

The Department has reviewed the referenced document and has the following comments:

1. Please paginate the Closure Plan.
2. II. Historical Operations, Second Paragraph, and Second Sentence: Please expand this sentence by adding "except for trial testing". Also, add a third sentence "Please see Notarized Certification that is attached as Attachment 1".
3. IV.4. Facility Closure Plan: Please add to this item "J&M Industrial will provide a bill of lading or receipt of completion of the work order, and removal of the machine from this facility".
4. V. b, and Appendix B: Please add the nearest potable water system and also, the surface waterbody to the closure plan.
5. IV.5. Facility Closure Plan: Please add EPA ID of the transporter to this statement.
6. VI.1. Conclusion and Recommendations: CEC recommends the following, last sentence, second line: Delete "have" and add "had", CEC does not "believe in recommending".
7. VI.5. The facility will collect residue samples in tanks, piping, ancillary equipment, test the residues and submit the test results to DEP upon approval of this closure plan. Results must be submitted to the Department within 30 days of receipt of this letter.
8. Add Closure Schedule as "VII": Please add the schedule "start to finish".
9. General Comment: To support your position that you never operated at this facility, except during the trial period, the Department requests that you submit a sworn notarized affidavit for our records. The affidavit should state the time period during which you held operator status at this facility and most importantly,
