[UES - inspection report - 2018.pdf](#)

Good morning Mr. Kinley,

Thank you for contacting the Department regarding UES's compliance status as noted on EPA's website screenshot.

The dates indicated on the EPA website correspond with the violations cited in the 3/16/2018 hazardous waste inspection report; a copy of which is attached for your convenience. There were violations cited for used oil being stored in a white frac tank outside of secondary containment and modifying the facility (adding storage capacity, a new containment area, and processing equipment) without a permit modification. Thus, it appears that the dates on the EPA website are related to the truck receiving pad/containment area issues.

Please let us know if any other information is needed or if you would like to discuss further.

Thanks,

Shannon

Good afternoon Ms. Kennedy or Ms. Brownlee. I was looking at the EPA website regarding our facility compliance (FLR000199802) and discovered the attached. Are the 18 months listed the period of time that resulted in our Consent Order related to our truck receiving pad / containment area?

Ms. Bridges replied on Tuesday that she would look into this and get back to me. I got an out of office auto reply from her when I inquired.

Regards,

Ed Kinley
