Operating Permit Renewal, Safety-Kleen Tampa Facility
5309 24th Avenue South, Tampa, Hillsborough County, Florida
EPA ID Number: FL 980 847 271; Current Operating Permit: 34744-009-HO

Dear Mr. Curtis:

Thank you for your operating permit renewal application received on May 26, 2021 for the above referenced Facility. Based upon a combined Department and Safety-Kleen staff review and discussion held on June 1, 2021, the Department and Safety-Kleen have concluded that a revised application is needed.

In the revised application, all text and figures relating to the management of Pharmaceutical Wastes at the Tampa facility will be removed. As discussed and agreed to, once the facility has made certain security modifications and has received the needed registration from the Department of Business of Professional Regulation (DBPR), Safety-Kleen will apply for a future permit modification which will entail information regarding management of hazardous and non-hazardous Pharmaceutical Wastes.

Pursuant to the provisions of Rule 62-730.220 F.A.C. and Rule 62-730.220(6), F.A.C., please submit the document listed below:

Revised Hazardous Waste Operating Permit for Container and Tank Storage and Implementation of HSWA Corrective Action Requirements.

Refer to this correspondence in your response. The response to this correspondence must be signed, sealed, and dated by a registered Florida Professional Engineer.

June 2, 2021

In order for the Department to continue processing your application, please submit the requested information as soon as possible. The Department must receive a response within 30 days of the date of this letter, or no later than July 2, 2021, unless a written request for additional time to provide the requested information is submitted and approved. Pursuant to Rule 62-730.220(6), F.A.C. and Section 120.60, F.S., failure of an applicant to provide the timely requested information by the applicable deadline may result in denial of the application.
