1. **Financial Responsibility – Cert of Liability Insurance (General)**

   a. Financial Responsibility 62-730.170(3) F.A.C.: Tropical's current policy has expired. The current Certification of Liability Insurance that covers pollution liability must be submitted.

   Complete: The Insurer, Everest, has forwarded a wet copy to the DEP Tallahassee office. DEP is in receipt of this.

2. **Labeling**

   a. IBC and drum contain blank incomplete labels **(Port Maintenance)**

   Complete: The IBC 275 tote has been properly labeled.

b. Twenty-four (24) – Fifty-five (55) gal drums are not provided with secondary containment, completely labeled or in suitable condition to store regulated waste. **(Marine Dept Shop)**

Complete: **Cliff Berry Incorporated has pumped sixteen (16) used oil drums, removed eight (8) sludge drums and removed one (1) oily debris drum. Disposal documentation is attached.**

See attached: Exhibit A, Exhibit B, Exhibit C, Exhibit D

Going forward the dept will provide secondary containment, properly label wastes, and use DOT approved shipping containers.

3. Labeling

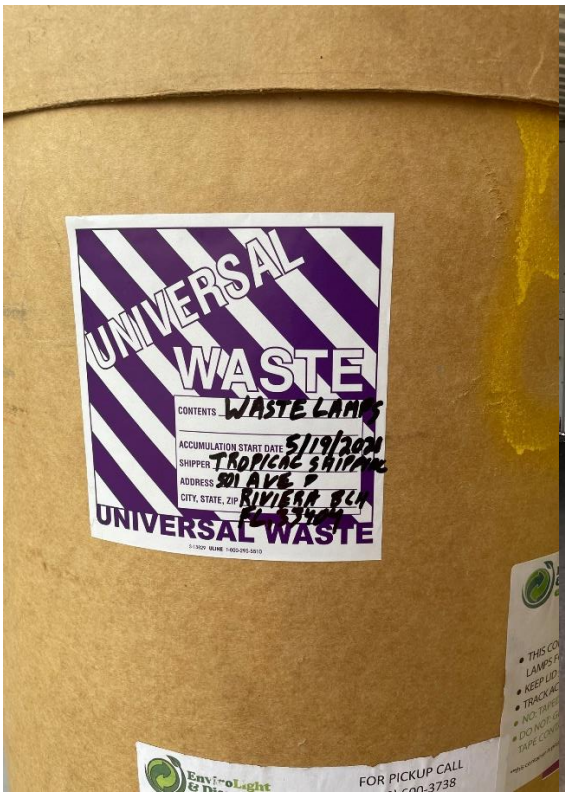
a. Drums/storage containers lack proper labeling. Used oil filter drums not labeled. Used oil container not labeled. **(Refrigeration Shop)**

Complete: Used oil filter/Used oil drums have been labeled.

4. <u>Labeling and improper packaging</u>

a. Spent fluorescent light bulbs were not completely protected from breakage and were missing Universal Waste labels with accumulation start date. **(CAA)**

Complete: **Light bulbs repacked into proper container and labeling applied. Going forward only fiber board cylinders will be used for storage of waste lamps. Additional empty fiber board cylinders stored onsite.**



5. Labeling

a. Contents of fifty-five (55) gal drum not properly identified in the CAA.

Complete: Labeled completed to reflect contents.

6. Records

a. Request: DEP has requested records concerning disposal records for used oil, used oil filters, spent solvent, oily rags, oily water, dry sludge, spent mercury lamps, spent lead acid batteries, scrap metal, and hazardous waste dating back to 2/12/2020.

Complete: Records are attached to this report.

See attached: Exhibit E, Exhibit F, Exhibit G, Exhibit H, Exhibit I, Exhibit J

7. Training

a. Tropical must provide training records for associates involved in the transportation activities of Hazardous Waste.

Complete: Training records are attached to this report.

See attached: Exhibit K

8. Spill of Alcohol

a. On August 5th, 2021 the Rum Transfer Station in the PPB experienced a spill of Ethanol UN1170 releasing an estimated 1500 gallons into the environment.

Complete: This site has been remediated and the Emergency Source Removal Report is attached to this report.

See attached: Exhibit L

11. CERTIFICATION: This is to certify that the above named materials are properly classified, described, packaged, marked and labeled, and are in proper condition for transportation according to the applicable regulation of the Department of Transportation. I certify the materials decribed above on this manifest are not subject to federal regulations for reporting proper disposal of Hazardous Waste.

TERMS & CONDITIONS: Customer agrees that work has been performed satisfactorily. Payment is due upon completion of services. Where CBI extends credit, a charge of 1-1/2% per month, 18% per annum, will be added to balances unpaid 30 days after date of invoice. Collection costs and/or reasonable attorney's fees will be due in the event any collection process becomes necessary. This is not an invoice, but merely an estimate of charges. Applicable taxes, tariffs and fuel surcharges will be forwarded on invoice.

11. CERTIFICATION: This is to certify that the above named materials are properly classified, described, packaged, marked and labeled, and are in proper condition for transportation according to the applicable regulation of the Department of Transportation. I certify the materials decribed above on this manifest are not subject to federal regulations for reporting proper disposal of Hazardous Waste.
TERMS & CONDITIONS: Customer agrees that work has been performed satisfactorily. Payment is due upon completion of services. Where CBI extends credit, a charge of 1-1/2% per month, 18% per annum, will be added to balances unpaid 30 days after date of invoice. Collection costs and/or reasonable attorney's fees will be due in the event any collection process becomes necessary. This is not an invoice, but merely an estimate of charges. Applicable taxes, tariffs and fuel surcharges will be forwarded on invoice.

11. CERTIFICATION: This is to certify that the above named materials are properly classified, described, packaged, marked and labeled, and are in proper condition for transportation according to the applicable regulation of the Department of Transportation. I certify the materials decribed above on this manifest are not subject to federal regulations for reporting proper disposal of Hazardous Waste.
TERMS & CONDITIONS: Customer agrees that work has been performed satisfactorily. Payment is due upon completion of services. Where CBI extends credit, a charge of 1-1/2% per month, 18% per annum, will be added to balances unpaid 30 days after date of invoice. Collection costs and/or reasonable attorney's fees will be due in the event any collection process becomes necessary. This is not an invoice, but merely an estimate of charges. Applicable taxes, tariffs and fuel surcharges will be forwarded on invoice.

11. CERTIFICATION: This is to certify that the above named materials are properly classified, described, packaged, marked and labeled, and are in proper condition for transportation according to the applicable regulation of the Department of Transportation. I certify the materials decribed above on this manifest are not subject to federal regulations for reporting proper disposal of Hazardous Waste.
TERMS & CONDITIONS: Customer agrees that work has been performed satisfactorily. Payment is due upon completion of services. Where CBI extends credit, a charge of 1-1/2% per month, 18% per annum, will be added to balances unpaid 30 days after date of invoice. Collection costs and/or reasonable attorney's fees will be due in the event any collection process becomes necessary. This is not an invoice, but merely an estimate of charges. Applicable taxes, tariffs and fuel surcharges will be forwarded on invoice.

10. SPECIAL HANDLING INSTRUCTIONS:
ncinerate waste to energy

11. CERTIFICATION: This is to certify that the above named materials are properly classified, described, packaged, marked and labeled, and are in proper condition for transportation according to the applicable regulation of the Department of Transportation. I certify the materials decribed above on this manifest are not subject to federal regulations for reporting proper disposal of Hazardous Waste.

TERMS & CONDITIONS: Customer agrees that work has been performed satisfactorily. Payment is due upon completion of services. Where CBI extends credit, a charge of 1-1/2% per month, 18% per annum, will be added to balances unpaid 30 days after date of invoice. Collection costs and/or reasonable attorney's fees will be due in the event any collection process becomes necessary. This is not an invoice, but merely an estimate of charges. Applicable taxes, tariffs and fuel surcharges will be forwarded on invoice.

11. CERTIFICATION: This is to certify that the above named materials are properly classified, described, packaged, marked and labeled, and are in proper condition for transportation according to the applicable regulation of the Department of Transportation. I certify the materials decribed above on this manifest are not subject to federal regulations for reporting proper disposal of Hazardous Waste.

TERMS & CONDITIONS: Customer agrees that work has been performed satisfactorily. Payment is due upon completion of services. Where CBI extends credit, a charge of 1-1/2% per month, 18% per annum, will be added to balances unpaid 30 days after date of invoice. Collection costs and/or reasonable attorney's fees will be due in the event any collection process becomes necessary. This is not an invoice, but merely an estimate of charges. Applicable taxes, tariffs and fuel surcharges will be forwarded on invoice.

11. CERTIFICATION: This is to certify that the above named materials are properly classified, described, packaged, marked and labeled, and are in proper condition for transportation according to the applicable regulation of the Department of Transportation. I certify the materials decribed above on this manifest are not subject to federal regulations for reporting proper disposal of Hazardous Waste.

TERMS & CONDITIONS: Customer agrees that work has been performed satisfactorily. Payment is due upon completion of services. Where CBI extends credit, a charge of 1-1/2% per month, 18% per annum, will be added to balances unpaid 30 days after date of invoice. Collection costs and/or reasonable attorney's fees will be due in the event any collection process becomes necessary. This is not an invoice, but merely an estimate of charges. Applicable taxes, tariffs and fuel surcharges will be forwarded on invoice.

11. **CERTIFICATION:** This is to certify that the above named materials are properly classified, described, packaged, marked and labeled, and are in proper condition for transportation according to the applicable regulation of the Department of Transportation. I certify the materials decribed above on this manifest are not subject to federal regulations for reporting proper disposal of Hazardous Waste.
TERMS & CONDITIONS: Customer agrees that work has been performed satisfactorily. Payment is due upon completion of services. Where CBI extends credit, a charge of 1-1/2% per month, 18% per annum, will be added to balances unpaid 30 days after date of invoice. Collection costs and/or reasonable attorney's fees will be due in the event any collection process becomes necessary. This is not an invoice, but merely an estimate of charges. Applicable taxes, tariffs and fuel surcharges will be forwarded on invoice.

NOTES OR SPECIAL HANDLING INSTRUCTIONS:
RCRA EMPTY CYCLINDERS 4

EMERGENCY CONTACT 24/7 NUMBER: 954-625-2310

THIS COLLECTION WILL BE DOCUMENTED TO: ☐ BROWARD COUNTY - PPRAQ ☐ DADE COUNTY - DERM

IMPORTANT: Payment due upon receipt, service charge of 1.5% per month (18% Annual) will be charged on balances over 30 days.

GENERATORS CERTIFICATION:

I hereby certify that every effort has been made to collect used oil, used anti-freeze, used oil filters, used oil absorbent, and petroleum contact waters in separate collection vessels and in accordance with all regulations and Best Management Practices as appropriate to my industry. The contents of this consignment are fully and accurately described and are in all respects in proper condition for transport by highway or railroad according to applicable Federal, State or Local government regulations.

In the event that this material is found to be hazardous waste, I accept responsibility for its proper disposal and reporting, if required, under Federal, State or Local regulations, including any contamination by commingling. Unless I am exempt by a statute or regulation, I also certify that I am in compliance with Section 3002 (b) or RCRA.

LAND DISPOSAL RESTRICTION NOTIFICATION CERTIFICATION FORM

Generator Name: CHEMICAL SHIPPING Generator EPA ID Number: FLR000015729

Manifest Number: 014612618 FLE

The purpose of this form is to provide appropriate notification/certification, in accordance with the Land Disposal Restriction regulations set forth in 40 CFR Part 268, to the treatment, storage or disposal facility which receives the wastes referenced below. In accordance with the waste analysis and recordkeeping requirements specified in 40 CFR 268.7, I have indicated below the relevant information required to properly manage my waste(s) in compliance with the Land Disposal Restriction treatment standards found in 40 CFR Part 268.

Approval/Lab Code	Manifest Line # (e.g., 11(a), 11(b))	W W W	N W W	List the EPA Waste Codes, Subcategories and/or Constituent(s) of Concern (these may also be identified by attaching a UHC Table Form)*	UHCs* (Y or N)	Classification Group
	9a.1.		X	D041, D035, F003, F005	N	A

W.W. - Wastewater N.W.W. - Non-Wastewater

* The Underlying Hazardous Constituents (UHCs) must be identified for characteristic waste streams, EPA Waste Codes D001-D043, if the wastes are treated in non-CWA, non-CWA equivalent or non-SDWA facilities. Please complete and attach an Underlying Hazardous Constituents (UHC) Table sheet (photocopy as necessary) for each affected Approval/Lab Code. The UHC Table sheet may also be used to identify constituents of concern for F001-F005 and F039 wastes.

Classification Groups

A. Restricted wastes which require treatment.
B. Restricted wastes already treated to meet LDR Treatment Standards.
C. Characteristic wastes already treated to meet Universal Treatment Standards (UTS) including underlying hazardous constituents (UHCs).
D. Restricted wastes that meet LDR Treatment Standards without prior treatment.
E. Restricted wastes subject to an Exemption or Variance. This waste is not prohibited from land disposal until_____ (date).
F. Hazardous debris subject to Alternative Treatment Standards in 40 CFR 268.45 (List Contaminants).
G. Hazardous debris subject to Treatment Standards in 40 CFR 268.40.
H. Lab Pack wastes subject to Alternative Treatment Standards under 40 CFR 268.42(c).
I. Wastes already treated to remove hazardous characteristic(s) but require further treatment for underlying hazardous constituents (list constituents).
J. Contaminated Soils that *do not meet* treatment standards
   1. This contaminated soil does contain listed waste and does exhibit a characteristic of hazardous waste and is subject to the soil treatment standards as provided by §268.49(c) or the UTS.
   2. This contaminated soil does contain listed waste and does not exhibit a characteristic of hazardous waste and is subject to the soil treatment standards as provided by §268.49(c) or the UTS.
   3. This contaminated soil does not contain listed waste and does exhibit a characteristic of hazardous waste and is subject to the soil treatment standards as provided by §268.49(c) or the UTS.
K. Contaminated Soils that *meet* treatment standards
   1. This contaminated soil does contain listed waste and does not exhibit a characteristic of hazardous waste and complies with the soil treatment standards as provided by §268.49(c) or the UTS.
   2. This contaminated soil does not contain listed waste and does not exhibit a characteristic of hazardous waste and complies with the soil treatment standards as provided by §268.49(c) or the UTS.

The applicable certification statements corresponding to the Classification Groups identified above are as follows:

Classification Group B: "I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification. Based on my inquiry of those individuals immediately responsible for obtaining this information, I believe that the treatment process has been operated and maintained properly so as to comply with the treatment standards specified in 40 CFR 268.40 without impermissible dilution of the prohibited waste. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment."

Classification Group C: "I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 to remove the hazardous characteristic and that underlying hazardous constituents, as defined in §268.2(i), have been treated on-site to meet the §268.48 Universal Treatment Standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment."

Classification Group D: "I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in 40 CFR Part 268 Subpart D. I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of a fine and imprisonment."

Classification Group H: "I certify under penalty of law that I personally have examined and am familiar with the waste and that the lab pack contains only wastes which have not been excluded under appendix IV to 40 CFR part 268 and that this lab pack will be sent to a combustion facility in compliance with the alternative treatment standards for lab packs at 40 CFR §268.42(c). I am aware that there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment."

Classification Group I: "I certify under penalty of law that the waste has been treated in accordance with the requirements of 40 CFR 268.40 to remove the hazardous characteristic. This decharacterized waste contains underlying hazardous constituents that require further treatment to meet universal treatment standards. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine or imprisonment."

Classification Group K1, K2 "I certify under penalty of law that I have personally examined and am familiar with the treatment technology and operation of the treatment process used to support this certification and believe that it has been maintained and operated properly so as to comply with treatment standards specified in 40 CFR 268.49 without impermissible dilution of the prohibited wastes. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.

SECTION 1.0
INTRODUCTION

1.1 PURPOSE

Gallagher Bassett Technical Services (GBTS), a division of Gallagher Bassett Services, Inc. (GBSI), was retained by Cliff Berry, Inc. (referred to as the Client) to perform an Emergency Source Removal of rum-affected soils at the Tropical Shipping Rum Transfer Station located at the Port of Palm Beach in Riviera Beach, Palm Beach County, Florida 33404. Source removal activities were conducted in accordance with the Florida Department of Environmental Protection's (FDEP's) guidelines for Emergency Response Action as defined in Chapter 62-780.500 of the Florida Administrative Code (F.A.C.), and are summarized in this report. **Figure 1** provides a recent aerial photograph which identifies the spill location with associated GPS coordinates of the eastern and western spill limits.

1.2 USER RELIANCE

This report was prepared solely for the use of Cliff Berry, Inc. (CBI). Reliance on this Emergency Source Removal Report is subject to the purpose, scope of work, qualifications, conditions and limitations provided within this report, and the terms and conditions of the Professional Services Agreement (PSA) executed between the Client and GBTS. Third parties provided reliance by GBTS through an executed reliance letter may rely on this report subject to the same conditions of the report and PSA. All unauthorized third parties rely at their own risk, and shall indemnify and hold GBTS harmless against any liability for any loss arising out of or related to reliance by any unauthorized third party on any work performed there under, or the contents of this report.

1.3 BACKGROUND

GBTS was contacted by CBI on Thursday, August 5, 2021 regarding a rum release at the Tropical Shipping Rum Transfer Station located within the Port of Palm Beach. The release was caused by an overfill/unsecured discharge hose atop an ISO (International Organization of Standardization) tank rail car, which was being filled via a piping network from an offloading freight ship. As a result of the incident, rum product was released onto the open ground surface adjacent to the loading dock and railroad track of the Rum Transfer Station. An estimated 1,500-gallons of rum product was lost during the accidental release. A GBTS representative mobilized to the site on Monday, August 9, 2021 in coordination with CBI personnel to facilitate source removal activities.

SECTION 2.0
SOURCE REMOVAL ACTIVITIES

GBTS conducted an Emergency Source Removal on Monday, August 9, 2021 to address the rum-affected soils in the vicinity of the Tropical Shipping Rum Transfer Station at the Port of Palm Beach. The rum product release resulted from an accidental overspill/unsecured discharge hose atop an ISO tank being filled on a rail car. Soil sampling was conducted in general accordance with the FDEP's Standard Operating Procedures (SOPs) as specified in Chapter 62-160 of the F.A.C. Photographs of the source removal activities are provided as **Appendix A**.

2.1 SOIL ASSESSMENT

The following summarizes the on-site soil assessment activities:

- Prior to excavating, CBI contacted Sunshine One Call to have public underground utilities marked or cleared. An underground fiber optic/communications utility was marked within the spill zone, which was further identified via hand excavating. The utility ran east to west through the southern portion of the spill zone and was approximately 1-foot below land surface (BLS).

- The spill area adjacent to the overhead discharge piping was identified by distressed vegetation adjacent to the railroad tracks. At its widest limits, the distressed vegetation measured approximately 10-feet (north to south) by 40-feet (east to west). No evidence of staining or odors were observed in the surficial soils of the spill zone. The spill area was generally confined to the north by the railroad tracks servicing the Rum Transfer Station, and to the south by a metal chain-linked fence, beyond which were multiple railroad tracks.

- Utilizing a Photoionization Detector (PID), pre-excavation soil samples were collected and screened to further delineate rum-affected soils. The screening levels were compared to the FDEP 10 parts-per-million (ppm) action level to identify soils in need of removal. Soils were collected for screening at 1-foot BLS in the north, east, south, west, and central portions of the spill zone, as were surficial soils across the top. All samples were less than 1ppm, with the exception of the western 1-foot BLS sample, which was 30ppm. Faint rum odors were observed in all 1-foot BLS samples.

- Soils were excavated by CBI personnel via mini-excavator to skidsteer due to access limitations. Excavated soils were placed directly into a staged dump truck for disposal at Waste Management located in Okeechobee, Florida. A total of 11.49-tons of rum-affected soils were removed from the site for proper disposal. A copy of the disposal manifest, along with clean fill weight ticket are provided as **Appendix B**.

- While excavating affected soils, grab soil samples from the sidewalls and base of the excavation were screened with a PID to identify clean boundaries. All screened soil samples were less than 1-ppm with the exception of West Base (2-3'), which was 362ppm. PID findings are further detailed in **Table 1**.

- The vicinity of the West Base (2-3') location could not be excavated to a deeper depth due to several limiting factors. Per Port of Palm Beach engineer instructions, excavating next to the railroad is restricted to a 1-foot over/1-foot down, 2-feet over/2-feet down, etc. formula as to not compromise the railroad in place. The excavation in this area was approximately 2.5-feet away

from the railroad tracks. Further, two (2) unidentified utilities were located at 2-feet BLS running east to west through the northern portion of the excavation. Both ran parallel side-by-side and consisted of 2-inch PVC pipes. The metal chain-link fence along the southern sidewall was an additional constricting factor.

- The final excavation limits varied 3 to 4.5-feet (north to south) by 32-feet (east to west), and ranged from 1 to 2-feet BLS. An Interim Source Removal Map illustrating the excavation area is provided as **Figure 2.**

SECTION 3.0
CONCLUSIONS AND RECOMMENDATIONS

GBTS conducted an Emergency Source Removal to address the rum-affected soils in the vicinity of the Tropical Shipping Rum Transfer Station within the Port of Palm Beach. The rum product release resulted from an accidental overspill/unsecured discharge hose atop an ISO tank being filled on a rail car. Soil screening utilizing a PID revealed clean boundaries throughout the excavation, with the exception of the western base. Moderate rum odors and PID screening levels of 362 ppm were still observed in this area. However, due to multiple site limitations, further excavation to a greater depth was not permissible. GBTS oversaw the successful removal of impacted surficial soils and the in-place capping of impacted soils below 2-feet BLS with clean certified fill.

Based on the past and future use of the site (i.e. industrial port operations), and the aforementioned reasons, GBTS recommends:

- Any excavated soil which has the potential for off-site disposal due to "rail construction or service" related activities should be appropriately sampled for waste classification purposes. Appropriate waste classification sampling should include analyses for Target Compound List (TCL) compounds/Target Analyte List (TAL) metals and for Resource Conservation and Recovery Act (RCRA) Characteristics. If contaminated soils are identified, proper worker exposure controls should be implemented, including proper personal protective equipment (PPE), stringent dust control procedures, and proper handling/disposal of these soils. Given environmental conditions (contaminated dust, soil, vapors and groundwater) caused by excavation and other construction activities are unknown a modification of Material (Dust, Soil, Storm-water, Groundwater, etc.) Management Plans, and the standard Health and Safety Plan will need to be considered.

SECTION 4.0
ENVIRONMENTAL PROFESSIONAL STATEMENT

I, Timothy Lentz, P.G. #2461, certify that I currently hold an active license in the state of Florida and am competent through education and experience to provide the geological consulting services documented in the aforementioned document. I further certify that this report meets the general requirements of Chapter 62-780.550, FAC for Source Removal, and was prepared by me, with sampling conducted under my direction. Moreover, I certify that GBTS holds an active certificate of authorization #GB847 to provide geological services in the state of Florida

I declare that, to the best of my professional knowledge and belief, I meet the definition of *Environmental Professional* as defined in § 312.10 of 40 Code of Federal Regulations (CFR) 312.

The Environmental Professional (EP) who directed this project has the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Notes about this calibration

Calibration Result Calibration Successful
Who Calibrated Jason Bojnansky

All instruments are calibrated by Pine Environmental Services LLC according to the manufacturer's specifications, but it is the customer's responsibility to calibrate and maintain this unit in accordance with the manufacturer's specifications and/or the customer's own specific needs.

Notify Pine Environmental Services LLC of any defect within 24 hours of receipt of equipment
Please call 800-301-9663 for Technical Assistance

APPENDIX D

FDEP – 30 DAY – SOURCE REMOVAL FORM

Florida Department of Environmental Protection

(SOURCE REMOVAL REPORT)

Required Signatures: **Adobe Signature**

The Florida Department of Environmental Protection, Office of Emergency Response (OER) Source Removal Report may be used as a cleanup report for discharges regulated under Chapter 62-780, F.A.C., that constitute an emergency situation. Within 60 days of completion of free product removal and disposal, and/or soil treatment or disposal, send this report and attachments to the Florida Department of Environmental Protection, Office of Emergency Response.

Incident Date: 8/5/2021 Date Cleanup Initiated: 8/9/2021 Date Cleanup Completed: 8/9/2021

Location of Incident: 142 East Port Road (Port of Palm Beach)

Nearest City/Town: Riviera Beach County: Palm Beach

Latitude: 26* 46.067' Longitude: 080* 03.517'

Material Discharged: Rum Product

Volume Discharged: 1,500 ☑ Gallons ☐ Pounds

Cause of Discharge (Check All that Apply):

☑ UST/AST Overfill ☐ Fuel Tank Leak ☐ Train Accident ☐ Container Leak (Drum)

☐ Vehicle Accident ☐ Valve Leak ☐ Pipeline Leak ☐ UST/AST Line Leak

☑ Cargo Tank Leak ☐ Other: _____

Environment Affected (Check All that Apply):

☐ Air ☐ Sanitary Sewer ☐ Coastal Beach ☐ Storm Drain ☐ Impervious Surface

☑ Soil ☐ Roadside Ditch ☐ Groundwater ☐ Wetland Area

☐ Surface Water: (Name) _____ ☐ Other: _____

Responsible Party/Spiller Information:

Name: Tropical Shipping Contact: _____

Mailing Address: _____

(SOURCE REMOVAL REPORT)

Cleanup Contractor Information:

Name: Cliff Berry, Inc. Contact: John Katzor

Mailing Address: 5855 Industrial Drive

City: Cocoa State: Florida Zip: 32927

Telephone: (321) 639-4199 Alternate Phone: _____ Fax: _____

Email: JKatzor@cliffberryinc.com

Method of Cleanup (Check All that Apply):

- [x] Soil Excavation
- [ ] Absorbants
- [ ] Skimmer
- [ ] In-Situ Burning
- [ ] Vacuum Truck
- [ ] Boom
- [ ] Street Sweeper
- [ ] Neutralization
- [ ] Other: _____

Volume of Free Product Recovered: 0 [x] Gallons [ ] Drums

Disposal Method of Free Product Recovered: [ ] Incineration [ ] Fuel Blending [ ] Wastewater Treatment

[ ] Other: _____

Volume of Soil Removed: 11.49 [ ] Cubic yards [ ] Pounds [x] Tons [ ] Drums

Dimensions of Soil Excavation: 32.0 'Long 3.0 (min) to 6.0 (max) 'Wide 1.0 (min) to 2.0 (max) 'Deep

Disposal Method of Soil Removed: [ ] Soil Thermal Treatment Facility [ ] Landfill [ ] Hazardous Waste

[ ] Other: _____

Volume of Other Debris/Materials Removed: N/A [ ] Pounds [ ] Tons [ ] Drums

Disposal of Debris/Material Removed: [ ] Soil Thermal Treatment Facility [ ] Landfill [ ] Hazardous Waste

[ ] Other: _____

Volume of PCW Removed: N/A [ ] Gallons [ ] Drums

[ ] PCW disposed of in authorized wastewater treatment facility

Depth of Groundwater: Not Encountered **How Determined:** _____

Florida Department of Environmental Protection

(SOURCE REMOVAL REPORT)

Type of Field Screening Instrument or Method Used:

☐ OVA/FID ☑ PID ☐ Other: _____

Summary of Instrument Readings:

Highest Reading Observed Before Excavation: 30.0 ppm

Highest Reading Observed After Excavation: 362.0 ppm

Lowest Reading Observed After Excavation: 0.0 ppm

Laboratory Information: (if applicable):

Name: N/A

DOH ELCP Certification Number: _____

Attached Copies of (as applicable):

☑ Documentation confirming recycling, treatment, or disposal of all materials

☑ Weight tickets

☐ Copy of analytical results

☑ A scaled map of the site (including a graphical representation of the scale used) showing locations of free product recovered, the area of soil removed or treated, and any roads, ditches, etc. The map shall include dimensions of the excavation and the identification and location of all samples taken.

☑ A scaled map of the geographical area where the site is located

☑ A table indicating the identification, depth, and field soil screening results of each sample collected and location where confirmation samples were taken.

☑ A copy of the instrumentation calibration record for the field testing instrument(s)

☐ A copy of the sample transmittal record or Chain-of-Custody Form.

☐ Other: _____

Certification:

☐ I certify that the above information and attachments are correct to the best of my knowledge. I understand the submission of false information, or failure to comply with state and federal laws, is a civil and criminal violation and may be grounds for enforcement action.
