Tom, nothing has changed since our discussions in 2019; the Department agrees that the exemptions and procedures for treatability studies are not applicable to Perma-Fix (FLD 980 711 071 / Permit 17680-011-HO), given the current scope of permitted treatment processes and waste codes at the facility.

Dear Mr. Buselli,

Perma-Fix proposes to conduct additional treatment studies similar to those we discussed in 2019. Could you please confirm that the policies and interpretations as described in your email below are still in effect?

Thank you,

Tom Yarbrough

Good Afternoon Mr. Devin,

The Department has received the attached document and agrees that the treatability study requirements "... are not applicable for this situation..." as stated in the conclusions, and as discussed during the teleconference.

Please contact me with any additional questions or concerns.
