Re: EPA Visit / Compliance

Dear Ms. Tischler:

Please be advised in our Operations Manual, page 4 attached and to this email are the phone numbers to our local authorities, as well as a copy of the layout of our facility. Both our contingency plan and Operations Manual contain this important information and has been submitted to the aforementioned departments in case they need to provide emergency services.

Please contact me should you have any questions or comments. Thank you for your cooperation in this matter.

Sincerely,

Helys J. Abraham

- Miami-Dade County Emergency Contact Numbers:

Emergency	911
Administrative Headquarters (Non-Emergency Main Number)	786-331-5000
Central Records (Fire & Medical Incident Reports & Billing)	786-331-4900
Emergency Management eoc@miamidade.gov EEAP eeap@miamidade.gov	305-468-5400 Fax: 305-468-5401 TDD: 305-468-5402
Fire Engineering & Water Supply	786-315-2771
Fire Marshall (Fire Prevention, Permits&Inspections)	786-331-4800

TYPES OF COMMUNICATION DEVICES USED BY FACILITY PERSONNEL:

Intrinsically safe two way radios. EVX-530 series. **See attached specifications.**

NOTIFICATION PROCEDURES:

Our proper notification procedures are via telephone to the proper authorities. The National Response Center (NRC) 1-800-424-8802 for all releases covered under 40 CFR 110, such as cause a sheen upon or discoloration of the surface of the water or adjoining shorelines, etc. In addition, all releases of hazardous substances over CERCLA RQs must also be reported to the NRC.

DESCRIPTION AND LOCATION OF EMERGENCY SHUTDOWN:

Emergency shutdown valves are either air operated or manually cable operated. Their handles are situated on the driver's side part of the tank next to the tanker by the cab and the discharge valves can be shutdown immediately. Other shutdown operations

PRAKASH S. LODHA, P.E.
