DEP Facility # 299046607
Chapter 62-780, FAC, Closure Assessment Activities

Dear Mr. Hughes,

The Environmental Protection Commission (EPC) is contracted with the Florida Department of Environmental Protection (Department) to conduct the Storage Tank System Verification inspections for facilities located in Hillsborough County. The EPC has reviewed the Closure Assessment Report that was submitted on March 23, 2018, for the above referenced facility. Closure Assessment was performed as part of an incident investigation for the failed hydrostatic tests on the regular and premium sumps. The results provided in the Closure Assessment Report did not indicate the presence of petroleum contamination in excess of Department Soil Cleanup Target Levels.

Please note that this letter does not certify that this site is not contaminated, and the Department reserves the right to require appropriate actions for this site in accordance with Chapter 62-780, Florida Administrative Code (FAC), if any contamination is discovered in the future in excess of Department Cleanup Target Levels.

If you have any questions, please contact me at (813) 627-2600 Ext. 1231.

Sincerely,

Michael McDaniel
