Orange County – HW Short Form Consent Order Letter

Dear Mr. Waechter:

A hazardous waste compliance inspection was conducted at your facility on May 19, 2004. This inspection was conducted under the authority of Section 403.091, Florida Statutes, and Chapter 403, Part IV, Florida Statutes. The inspection is designed to ascertain the compliance status of your facility with 40 CFR 260-268, adopted in Florida Administrative Code Chapter 62-730.

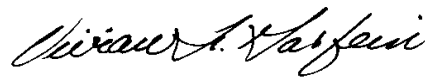

The Department has reviewed the corrective actions by Perma-Fix concerning the violations and corrective actions and has the following comments:

- a) F.S. 403.727 Permit Conditions-Storage Volume: The Department maintains that Perma-Fix violated this regulation but agrees to drop the penalty to a Minor/Minor violation, which reduces the multi-day penalty as well.
- b) Ten day Transfer Facility Accumulation Time: The Department maintains that Perma-Fix violated this regulation.
- c) Prohibitions of Storage: The Department maintains that Perma-Fix violated this regulation.
- d) Waste Determination: Perma-Fix has provided the Department with adequate documentation to remove this penalty from the calculations.
- e) Waste Analysis Plan: Perma-Fix has provided the Department with adequate documentation to remove this penalty from the calculations.
- f) Training: During the informal enforcement meeting, Perma-Fix explained that Anne Meador had received on the job training but it was not documented. Additionally, Miles Keller had not received training but was not working for Perma-Fix at the time he was due for training. The Department has changed this penalty to a Minor/Minor violation.
- g) General Inspections: The Department maintains that Perma-Fix violated this regulation but did not include the violation in the penalty calculations.
- h) Failure to Report Non-compliance with Permit: The Department maintains that Perma-Fix violated this regulation.

- i-n) Above Ground Storage Tank Regulations: The Department maintains that Perma-Fix violated these regulations.
- o) Used Oil Training: The Department maintains that Perma-Fix violated this regulation.
- p) Rebuttable Presumption: The Department maintains that Perma-Fix violated this regulation.
- q) Used Oil Filter Management: The Department maintains that Perma-Fix violated this regulation.
- r) Used Oil Container Labeling: The Department maintains that Perma-Fix violated this regulation.
- s) Unauthorized Storage: The Department maintains that Perma-Fix violated this regulation.
- t) Unapproved Permit Modification: The Department maintains that Perma-Fix violated this regulation

Enclosed is a copy of the revised penalty calculations and the Short Form Consent Order for your review. If you have questions concerning this matter, please e-mail Janine Kraemer at Janine.Kraemer@floridadep.net or call her at (407) 893-3323. Your response to this request for information should be mailed to Janine Kraemer at the letterhead address above.

Dear Mr. Waechter:

The purpose of this letter is to advise you of possible violations of law for which you may be responsible, and to seek your cooperation in resolving the matter. Hazardous and Solid waste compliance inspections were conducted at your facility on May 19, May 21, and June 8, 2004. These inspections were conducted under the authority of Section 403.091, Florida Statutes, and Chapter 403, Part IV, Florida Statutes in order to determine the compliance status of your facility with 40 Code of Federal Regulations (CFR) Parts 260-268, and Part 279 adopted in the Florida Administrative Code and other Florida laws relating to solid and hazardous waste, storage tanks, and used oil.

The inspections were also conducted under the authority of Section 403.161 (1)(b), Florida Statutes and Chapters 62-4 and 62-701, Florida Administrative Code, which provides that a permittee shall comply with any rule regulation or permit issued by the Department.

During the inspections, Department personnel observed possible violations of Florida Statutes and Rules and permit conditions regarding solid and hazardous waste, storage tanks, and used oil. These violations are set forth in "Potential Noncompliance Items and Corrective Actions" of the attached inspection report.

The activities observed during the Department's field inspections and any activity at your facilities that may be contributing to violations of the above described statutes and rules should be ceased immediately.

The Department has calculated penalties for the violations addressed above. The penalty work sheet is enclosed. The penalty amount was calculated in accordance with Section 403.121, Florida Statutes. the U.S. EPA RCRA Civil Penalty Policy, dated June 2003, and the Department's Guidelines for Characterizing RCRA Violations. A copy of the documents is available upon request.

Please contact Janine Kraemer, Hazardous Waste Section, by telephone at (407) 893-3323 or by e-mail at janine.kraemer@floridadep.net within 10 days of receipt of this letter to schedule an informal conference concerning resolution of this matter. The Department is interested in reviewing any facts you may have that will assist in determining whether any violations have occurred and whether any penalties are appropriate. You may bring anyone with you to the meeting that you feel could help resolve this matter.

This Warning Letter is part of an agency investigation preliminary to agency action in accordance with Section 120.57(4), Florida Statutes. The Department looks forward to your cooperation in completing the investigation and resolution of this matter.

Sincerely,

Vivian F. Garfein
