Dear Mr. Kirk:

We appreciate the timely submittal dated February 25, 2005 of your facility's Alternate Management Plan for calendar year 2004. Your calculation documentations for the amount of mercury recovered and the Bill of Lading dated December 14, 2004 for the off-set mercury recovery satisfies the calendar year 2004 requirements of Chapter 62-737.840(3)(d).

Any questions you have regarding the Alternate Management Plan requirement or the RCRA program, please call Melissa Kennedy at 850/595-8360, extension 1265.

Sincerely,

Jim Byer
Hazardous Waste Section Supervisor
