WPB

A request for Permit Exemption pursuant to Rule 40E-4.053, Florida Administrative Code (F.A.C.) has been received for the above referenced project. The owner has certified that all conditions for the exemption have been or will be met upon construction; consequently the District will not be analyzing the surface water management system. It is therefore necessary that you consider this in your review of the project.

It should be noted that this is a project with the potential of generating ground and surface water pollutants. It is requested that your field personnel periodically monitor this site.

Sincerely,

Kenneth S. Todd, Jr., P.E
Supervising Professional
