MONTHLY SUMMARY

From September 1 to September 30, 1995

1. Tonnage In: 1,861.88

2. Tonnage Out:

Amount Recycled:

a. Whole Tires 114.10

b. TDF 1,248.82

c. Civil Engineering 0

Amount Landfilled 0

Total Out 1,362.92

3. Net Reduction for Period: (498.96)

Computation formula: Passenger tires at 20 lbs each, light truck at 40 lbs each and truck tires at 100 lbs each.

4. Ratio - Tons In:Tons Recycled

Current Period 73.20%

5. Passenger Tire Equivalents (PTE's) Recycled:

For the Month 136,299

For the Quarter 341,299

6. Removal and Reconfiguration of Stored Materials:

Work has been completed collecting and stacking all whole tires from the interim storage area and cleaning shreds from the fire lanes as required by the draft Stipulation of Settlement and Request for Consent Final Judgement agreed upon by FDEP and FTR.

5. Fire Fighting Equipment and Training:

a. During the month, FTR continued its practice of starting and running each of the fire trucks in its fire battalion and generally checking the condition of the fire equipment.

6. Trust Fund:

a. A \$4,000 deposit was made the Trust Fund established for financial assurance on September 13, 1995. As of September 30, 1995 the balance was \$122,227 including interest.

7. Engineering and Permit Applications:

a. FTR delivered its application for an amended MSSW permit to FDEP on June 2, 1995. The permit modification was received on July 21, 1995.

b. FTR continues to await approval from St. Lucie county on the application for an amended site plan. Approval is required before an application can be filed for a county storm water management plan and a building permit for the MSSW system.

c. The drawings and permit application for the county storm water permit have been completed so as to expedite submission to St. Lucie county as soon as site plan approval is received.

8. Other:

a. On July 1, 1995, FTR was advised by Chambers Development that they would no longer be using tire shreds for interim cover. The cut off was effective immediately.

b. 100% of the waste tires collected are being processed into TDF for future shipment to fuel users.

c. In September FTR commenced TDF shipments to a new fuel account. FTR is contracted as the sole supplier. Initial deliveries are projected at 650 tons per month to increase to about 1,200 tons per month by the end of October, 1995.

d. In early October FTR received a contract from a third fuel account calling for delivery

of 14,500 tons in the coming twelve months.
Shipments are to begin in mid-October.
