Re: Liberty Tire Recycling, LLC
9675 Range Line Road
Port St. Lucie, FL 34987
WTPF Permit No. 41202-WT-002
Closure Costs

Dear Mr. Brown:

Specific Condition 4 of the referenced permit allows a maximum amount of waste tires on the site of 4,963 tons. Following a site visit to the Liberty Tire Recycling processing facility today, I have observed that the amount of tires on the site does not exceed that amount. The amount of tires on site over the next year is also not expected to exceed that amount. I have also reviewed the 2010 Waste Tire Processing Quarterly Report dated January 20, 2011. The basis of the closure cost in this situation is:

4,963 tons
Disposal Cost \$22.79 per ton
Closure Cost \$113,107

This cost is based upon the hauling and loading rates attached. The processed tires will be accepted free of charge. The amount of whole tires on the site is negligible.

If you have any questions, please call.

Sincerely,

Joseph T. Friscia, P.E.

Mr. George Woodward
Liberty Tire Recycling
9675 Range Line Road
Port St. Lucie, FL 34987

Dear George:

Per your request, Wheelabrator is pleased to provide the following proposal for waste tire disposal in the event of site closure at your facility in Port St. Lucie, Florida.

- Whole Tires – will be accepted for a disposal of \$50 per ton f.o.b. Ridge Generating Station.
- Processed Tires meeting Wheelabrator Ridge Energy's specifications will be accepted free of charge.

If you need any additional information, please let me know.

Sincerely,

Rodney Williams
