Re: Weekly Tallies

I reviewed the weekly reports as a result of our phone discussion yesterday. I've revised the reporting format with the aim of making it a bit clearer. I believe the difference between your calculation and our was that since both TDF accounts were off in January, we were moving finished product into inventory. I have restated the reports for the first four weeks on the new format. You will note that the TDF inventory was nearly 1,000 tons at the end of that period.

We resumed TDF shipments to Cedar Springs at the end of January. Brunswick's stack permit is in process.

Please give me a call if you have any questions about the revised weekly report format.
