Re: Florida Tire Recycling
Proposed Stormwater Management Improvements in FPL Easement
Interim Loop Road

Dear Mr. Corson:

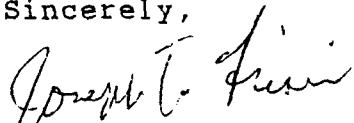

Thank you for your past assistance in preparing the "Right-of-Way Consent Agreement". This agreement is presently under review by Florida Tire Recycling, Inc.

The plans you have reviewed for the lake in your easement are presently in the permitting process. In the meantime, the FDEP is requiring Florida Tire to commence immediately with the design and construction of the "Loop Road". The road is required for fire equipment access to the existing shredded tire piles.

Since the tires and tire material will be removed from the area, a portion of the road is temporary (Interim Loop Road) and will be removed during implementation of the final plan. This road as proposed is in the FPL easement.

Please review and advise. If you have any questions, please call.

Sincerely,

Joseph T. Friscia, P.E.
