Dear Mr. Kahn,

Please find attached a response from FPL following our engineering plan, submitted to them at your direction, to secure FPL's consent to build a temporary access road within FPL's easement.

Please advise.

Sincerely,

RE: Florida Tire Recycling  
Proposed Interim Loop Road

Dear Mr. Friscia;

A review of your recent letter and site plan for the above mentioned subject reveals that your proposal adds to an existing problem. Florida Power & Light has requested numerous times for the tires be removed from the right of way because of the close proximity to the lines and now you propose a roadway that passes directly beneath the existing lines. This proposal can not be approved as presently proposed, please resubmit a revised plan.

Very truly yours;
