### MONTHLY SUMMARY

From April 1, 1996 to April 30, 1996

1. Tonnage In: 2,072.98

2. Tonnage Out:

Amount Recycled:

a. Whole Tires 109.71

b. TDF 2,231.80

c. Civil Engineering 72.64

Amount Landfilled 0

Total Out 2,414.15

3. Net Reduction for Period: 341.17

Computation formula: Passenger tires at 20 lbs each, light truck at 40 lbs each and truck tires at 100 lbs each.

4. Ratio - Tons In:Tons Recycled

Current Period 1:1.16

5. Passenger Tire Equivalents (PTE's) Recycled:

For the month 241,415

6. Fire Fighting Equipment and Training:

a. During the month, FTR continued its practice of starting and running each of the fire trucks in its fire battalion and generally checking the condition of the fire equipment.

6. Trust Fund:

a. A \$4,000 deposit was made the Trust Fund established for financial assurance on April 13, 1996. As of April 29, 1996 the balance was \$157,317.00 including interest.

7. Engineering and Permit Applications:

a. During the month of April, FTR commenced construction of the MSSW system despite still not receiving approval for funding of the project. The wet detention area and wetlands areas have been surveyed and staked. The perimeter road from Range Line Road to the wet detention area has been graded and improved to permit access to the working area. And the excavation of the key ditch has been completed. A copy of FTR's notification to the South Florida Water Management District is attached for reference.

8. Other:

a. At the beginning of April, FTR experienced a massive failure to the bearings of the main shaft of one of its two TDF processors severely reducing production during the period. Repair to the unit was not completed until the first week of May. This in turn caused a reduction of outbound shipments of about 1,500 tons.

South Florida Water Management District  
**Construction Commencement Notice**

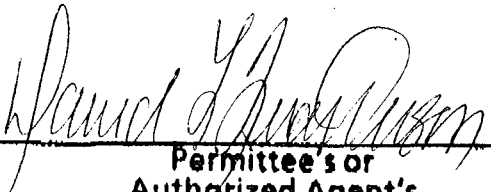

SOUTH FLORIDA WATER MANAGEMENT DISTRICT  
Field Engineering Division  
Post Office Box 24680  
West Palm Beach, FL 33416-4680

PROJECT: MSSW SYSTEM

PHASE: ONE

I hereby notify the South Florida Water Management District's Field Engineering Division that construction of the surface water management system, authorized by Surface Water Management Permit No. MS56-2451186 under Application No. MS56-2720046 has commenced/~~is expected to commence~~ on APRIL 22 1996 or will require a duration of approximately FOUR months 0 /weeks 0 /days to complete. It is understood that should the construction term extend beyond one year, I am obligated to submit the Annual Status Report for Surface Water Management System Construction (Reference Form #961) to the District.

**PLEASE NOTE:** If the actual construction commencement date is not known, District staff should be so notified in writing in order to satisfy permit conditions.
