RE: Southeast County Landfill - Leachate Data Quarterly Report

Dear Ms. Pelz:

In accordance with Specific Condition No. 8 of Permit No. 35435-014-SO, the Solid Waste Management Group (SWMG) is submitting the quarterly Leachate Water Balance summary for the Southeast County Landfill for the quarter ending April 15, 2011.

The data is being submitted as separate monthly reports for January, March, and April 2011. The information includes the leachate level in Pump Station B (PS-B). PS-B was below the 24-inch normal operation level during this quarter except for January 15, and March 9 and 12 due to pump malfunctions. These malfunctions were immediately corrected.

Also attached is the top of the phosphatic clay liner elevation at the Pump Station B Sump.

Please advise should you have any questions concerning the attached submittal.

Sincerely.
