Solid Waste Management Facility Permit Application
Waste Tire Processing Facility
Facility ID No. 0146251

RECEIVED

FEB 20 2004

DERM
POLLUTION CONTROL
DIVISION

Dear Sir:

This letter is in response to your January 29, 2004 letter requesting additional information (RAI #2) concerning the above referenced application. The only response from our last RAI requiring further response was item 3. This item refers to the emergency preparedness manual/contingency plan, fire safety survey, and the closing plan for the facility.

My assistant spoke recently with Carlos Hernandez (DERM) concerning these documents. Mr. Hernandez stated that DERM would accept a letter from the engineer of record verifying that these documents were up to date. I am writing this letter in order to verify that the above listed documents are indeed up to date.

The applicant respectfully requests that the review of this application be expedited to completion.

If you have any questions, please call me at (352) 377-5822.

Sincerely,

Steven C. Cullen, P.E.
