Re: Lee County Solid Waste Energy Recovery Facility Ft. Myers, FL
Power Plant Site Certification - DEP Case No. 90-30

Dear Ladies and Gentlemen:

On behalf of Lee County, Florida (the "County"), Malcolm Pirnie, Inc., is submitting the Florida Power and Light (FP&L) detailed engineering plans for the transmission lines between the Solid Waste Energy Recovery Facility and the FP&L Buckingham Substation. This is in compliance with the conditions of certification for the Lee County Solid Waste Energy Recovery Facility. The conditions of certification that specifically requires the submittal of the following information are:

CONDITIONS OF CERTIFICATION

SUBJECT

- | | |
|-------------|--|
| • XIII(A)7 | Transmission Lines |
| • XIV(G) | Transmission Lines |
| • XV(A)1(h) | Post Certification Information Submittals |
| • XV(C)3(b) | Transmission Line and Potable Water
Reclaimed Water and Wastewater
Transmission Lines Construction Plans |
| • XV(D)1(a) | Wetland Avoidance |
| • XV(D)2(c) | Transmission Line Potable Water, and
Wastewater Transmission Lines
Mitigation Plans |

Entered into
OCULUS
South District

● XX(A) Transmission Line

The enclosed plans are consistent with the preliminary engineering plans detailing transmission line and pole locations as submitted with the review package for the surface water management permit in September of 1992.

We believe that the enclosed post certification information submittal satisfies the applicable conditions of certification requirements for the electrical transmission line portion of the project (as referenced on page two of the correspondence dated September 24, 1993, from South Florida Water Management District to the Florida Department of Environmental Protection).

If you have any questions regarding the enclosed, please do not hesitate to contact us.

Very truly yours,

MALCOLM PIRNIE, INC.

Donald R. Markley
Assistant Project Manager
