Re: Southeast Landfill, Hillsborough County Solid Waste Section  
Operation Permit Renewal  
Pending Permit No.: S029-256427

Dear Mr. Smith:

This is to acknowledge receipt of the additional information in support of your permit application received May 26, 1995 to operate the solid waste management facility referred to as Southeast Class I Sanitary Landfill.

This letter constitutes notice that a permit will be required for your project pursuant to Chapter(s) 403, Florida Statutes.

Your application for a permit remains incomplete. Please provide the information listed below promptly. Evaluation of your proposed project will be delayed until all requested information has been received.

The following information is needed in support of the solid waste application [Chapter 62-701, Florida Administrative Code (F.A.C.)]:

1. The Department has no objections to the proposed Phase IV piezometer as shown in Figure 6. Please provide all record drawings and initial measurements of leachate depth over the clay liner as part of this permit application. This information is necessary to verify compliance with the engineer's design for leachate management.
2. Please provide a schedule for construction/installation for each site improvement and future phase development proposed as part of this permit application.
3. Please provide a revised Leachate Management Plan that describes the use of Table 2 and Figure 2 for compliance monitoring and excludes the use of leachate management systems that have to be removed or replaced.

Mr. Daryl Smith, Director  
Hillsborough County

June 5, 1995  
Page Two

Please be advised that a separate construction permit is required for the review and approval of permanent site improvements such as the future downchutes, leachate collection gallery in Phase VI, and closure.

"NOTICE! Pursuant to the provisions of Section 120.600, F.S. and Chapter 62-12.070(5), F.A.C., if the Department does not receive a complete response to this request for information within 30 days of the date of this letter, the Department may issue a final order denying your application. You need to respond within 30 days after you received this letter, responding to all of the information requests and indicating when a response to any unanswered questions will be submitted. If the response will require longer than 30 days to develop, you should develop a specific time table for the submission of the requested information for Department review and consideration. Failure to comply with a time table accepted by the Department will be grounds for the Department to issue a Final Order of Denial for lack of timely response. A denial for lack of information or response will be unbiased as to the merits of the application. The applicant can reapply as soon as the requested information is available."

You are requested to submit your response to this letter as one complete package. On all future correspondence to the Department, please include Robert Butera on distribution. If there are points which must be discussed and resolved, please contact me at (813) 744-6100, extension 382.

Sincerely,

Kim B. Ford, P.E.
