Jacksonville, Florida 32236

**Permit Number 0013494-017-SO
Notification of Waste Placement on Side Slopes**

Dear Mr. Durden:

This is a letter of notification of waste placement on side slopes at Trail Ridge Landfill as required by Specific Condition # 13 of our Permit. Side slope waste placement is in preparation for the next Incremental Closure segment. A larger than normal working face may be required; however, it will only be wide enough to accommodate daily volumes and sized to minimize the exposed waste area and cover material will be applied daily.

Please find attached a map of the area that will receive final waste placement over the next several months. Waste placement will generally progress in a west to east fill sequence. The anticipated completion date will be November 1, 2012.

Please do not hesitate to contact me a (904) 748-6012 if you have any questions or require any additional information.

Sincerely,

Greg Mathes
Sr. District Manager
Waste Management Inc. of Florida
