Other Individuals in Conversation/Meeting _____

Summary of Conversation/Meeting:

Ms. Williamson was called to discuss the intermittent reporting of results at GP-11. This point has been reported twice, once in November and once in March. Ms. Williamson said she did not realize that there was a GP-11 and did not know why it was reported. She is going to look into the situation.

The previously requested site plan including all the gas monitoring points, monitoring wells and piezometers was discussed. Ms. Williamson stated that she has not as yet had any success in obtaining the site plan. The engineers have not determined if they have adequate equipment to GPS in the well locations.

Dear Ms. Amram:

Enclosed for your review is the above referenced. Please note at the time of Leachate Sampling, there was no water in the ditch, we have called them back to do another sample so when we get the results we will forward them to you. Should you have any questions feel free to contact me.

Sincerely,

Janice Williamson
Solid Waste Superintendent
