Solid Waste Section

Dear Francine:

Attached is Citrus County's Annual Report for a Yard Trash Processing Facility, a Yard Waste Processing Facility Registration Renewal and a check for \$35.

Based on the limited level of sophistication in our methods at the time we took measurements, we believe that the figures for the material on site at the beginning of the current report year, which were forwarded from the 2001 Report, should have been substantially higher (Lines 7-a and 7-b). We are now making use of aerial photography and on ground survey techniques and have much higher confidence in the Total Quantity On Site at End of Report Year (Lines 11-a and 11-b) on the current report.

As a result of the low figures reported for the 2001 – 2002 carry-over, the quantity of material reported as being used in 2002 (Line 10-a) is also lower than the amount actually used. However, rather than attempt to correct the Annual Report by relying on yet more estimates we believe it would be best to apply the data as it now stands.

In order to increase the beneficial utilization of yard waste mulch the County rebid the contract for yard waste processing to include screening of the ground mulch product and marketing services for yard waste products. The availability of screened products has resulted in a strong increase in the demand for our mulch from both residential and commercial users. We also intend to make use of the contractors marketing services to further reduce the stockpile of processed yard waste.

If you have any questions please contact me at 352-527-7670

Regards,

Frank Wentzel
