At the time of the inspection waste was being disposed of at the top of Cell 2 which Mr. Galarza mentioned to the inspector is approximately 131 ft in elevation.

The inspector noted that the construction of Cell 3 is near completion. Mr Galazra mentioned to the inspector that it is projected to be complete by the end of October 2012.

The inspector observed new equipment located in the waste disposal area. The new equipment is a screener. It is used to process yard trash waste for recycling purposes and for use in the composting process onsite.

The landfill was in good order at the time of the inspection.
