On 4/26/13 a construction certification inspection was conducted for the installation of the next phase of the landfill gas collection system (LGCS). This phase consisted of the installation of 5 new gas wells, a condensate sump, and an expansion of the header pipe. The work was being done in cells 1 and 2. The 5 new gas wells installed were wells EW-5 through EW-9. At the time of this inspection, all installations were completed and the final survey was almost finished.
