COMMENTS:

04/01/2013

Permit No. WT 48-0287891-001

Expiration: 10/17/2013

At the time of the inspection the waste tire processing equipment was operational. Mr. Cliff McFadden mentioned that the equipment was down for one day in order to install new blades.

At the time of the inspection the waste tire quantity report for the 2013 first quarter was not submitted to the Department for review. Also, the fire survey report for 2013 was not submitted. Inspectors informed Mr. McFadden that these documents must be submitted to the Department immediately.

On April 2, 2013 during a conversation with Gloria De Pradine Mr. Vincent Contestabile, owner, indicated that he would provide the Department with the quarterly waste tire quantity report and the fire survey by the end of April 2013. The quarterly waste tire quantity report was submitted to the Department on April 30,2013.

On May 09, 2013 Gloria De Pradine contacted Mr. Contestabile regarding the lack of the fire survey submittal; he indicated that the fire survey would be conducted by the end of May 2013.

At the time of the inspection the waste tire processing equipment was operational. However, the loading equipment used to load the shredded tires for transportation was not operational. Mr. Cliff McFadden told the inspector that there was approximately 400 tons of shredded tires on site. He also mentioned that the equipment would be repaired the day after the inspection and that the shredded material would be removed from the site in two days.
