RE: Quarterly Leachate Sampling – Third Quarter 2003
Citrus County Landfill
Permit No. 21375-003-SO
JEA Project No. 03860-011-01

Dear Mr. Morris:

This report presents data from the Third Quarter sampling of the Leachate Influent, Leachate Effluent, and Waste Sludge at the Citrus County Landfill, performed on August 6, 2003.

The Leachate Influent and Waste Sludge were sampled for the annual parameters as required by the permit. The Leachate Effluent was sampled for the quarterly, semiannual, and annual parameters as required by the permit. Monthly Operating Reports (July, August, and September) and Weekly Leachate Effluent Analytical Reports will be forwarded under separate cover.

Leachate Influent, Effluent, and Sludge were sampled in conjunction with the Second Semiannual groundwater sampling event. Groundwater data will be submitted under separate cover. The original laboratory analytical report contained both Leachate and groundwater data. However, for convenience, the pages pertaining to groundwater have been excluded from this submittal. All groundwater data will be submitted collectively in the upcoming Second Semiannual groundwater report.

If you have any questions regarding this report, please contact us at (352) 377-5821.

Sincerely,

John D. Locklear
Project Manager
