Engineering, LLC

SUBGRADE ACCEPTANCE

PROJECT NAME: JED Cell 10 Construction
PROJECT NUMBER: 2014-101
OWNER: Omni Waste of Osceola County, LLC
ENGINEER: Geosyntec
LOCATION: St. Cloud, Florida

I, undersigned, a duly appointed representative of Brantley Engineering, LLC, have visually observed the soil subgrade surface described below, and found it to be an acceptable surface on which to install ☒ Geosynthetic Clay Liner(GCL) ☐ Geocomposite ☐ Geotextile ☐ HDPE.

The certification is based on subterranean inspections and tests performed by Brantley Engineering and visual observations of the subgrade only. Brantley makes no representations or warranties regarding conditions which may exist below the prepared surface of the subgrade. The subgrade conforms to the project specifications for installation of geosynthetics.

Area Being Accepted:

Coordinate with Geomembrane panels 1-27

CQA REPRESENTATIVE:
