El:

As discussed this morning, attached is the revised Page 8 Section 2 of the MRF Ops Plan that includes the language for removal of putrescible waste. The revised section is also below for your review. Please let me know if any other revisions are needed to this section. I have attached the revised Page 8 which includes this language. If you could please replace the page in the Operations Plan if the revised language is acceptable. Thank you for your comments and help with this application. Call me anytime with questions.

Thank you.

Jason

A. Storage of putrescible and unauthorized wastes

All putrescible waste shall be sorted and removed from incoming loads as they are received by the facility operator. Putrescible waste shall be stored in a leak-proof container with the lid closed, except when wastes are being deposited or removed from the container. **In accordance with Rule 62-701.710(4)(b), F.A.C., the putrescible waste container described will control vectors and odors; therefore,** the putrescible waste container shall be emptied when the container is full or at a minimum every 7 days, whichever occurs first. Any other unauthorized waste received by the facility shall be segregated and transported to an authorized disposal or recycling facility within 30 days of receipt.

Subject: WACS ID 51614 Sarasota County CCSWDC MRF Permit Renewal Application Permit No. 134912-004-SO/31

Good Morning El and Cory:

The CCSWDC MRF Permit Renewal Application we discussed last week was shipped out yesterday.

We expect the document to be delivered to the FDEP office today. The package includes two hardcopies of the application, a CD containing the PDF of the entire application, and the permit fee check in the amount of \$1,000.

In addition, I have attached here for your use in review of the document, the PDF of the complete application and a MSWord file containing the Operations Plan with all revisions tracked in comparison to the last approved Operations Plan. Please note that the revisions to the Operations Plan were significant from the last approved plan, therefore the tracked changes show entire sections struck out with new sections added all underlined.

Thank you again for all of your assistance and please contact me anytime if you have questions during review of the application.

Have a great weekend.

Jason
