RE: Specific Conditions # 19 and 36, Class I Landfill Operational Permit NO:
38414-002-SO

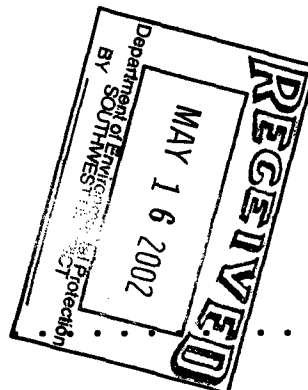

Dear Sir or Madam:

Submitted for your review are the quarterly methane readings for the Hardee County Landfill. In addition, our last groundwater analysis indicated a slightly high level of lead in Monitoring Well Number 8, which caused us to request re-testing. The results are attached, and indicate a much lower level. Should you have any questions please feel free to contact us.

Sincerely,

Janice Williamson,
Solid Waste Superintendent
