

SOUTHEAST COUNTY WASTE TIRE PROCESSING FACILITY EMERGENCY PROCEDURES

IN CASE OF FIRE:

A. SMALL FIRES

1. Contact the Hillsborough County Solid Waste Management representatives immediately.
2. The gate valves on the two 8" HDPE pipes will be closed to prevent liquid runoff from entering the stormwater Basin D.
3. Notify the Fire Department in case the situation cannot be managed in-house.
4. Remove all vehicles from the immediate area.
5. Separate the unburned tires using a front end loader (or other on-site available equipment).
6. Utilize the on-site water wagon to extinguish the fire.
7. Place sand on the tires that are on fire to smother the fire. An active borrow area with equipment is located immediately to the east of the Waste Tire Processing Facility (WTPF). Sand also will be used to absorb water and oily residue.
8. Clean up and dispose of sandy and oily residue following the contingency plan as described in the operations plan. The contaminated sand will be disposed of in the on-site landfill.

B. LARGE FIRES

1. Immediately contact the Hillsborough County Fire Department.
2. The gate valves on the two 8" HDPE pipes will be closed to prevent liquid runoff from entering the stormwater Basin D.
3. Remove all vehicles from the immediate area.
4. Contact the Hillsborough County Solid Waste Management representatives immediately.
5. Begin containment measures to minimize spreading of the fire and containing residue from the burning tires by digging a swale around the area (this will be supplemented with a berm, but by excavating a swale, this will provide immediate containment capabilities with on-site equipment), separating the unburned tires using a front end loader to lessen the potential for additional tires to catch on fire, and placement of a berm around the area for containment.

6. Utilize the water wagon to contain the fire until the Fire Department arrives (only if worker safety is not at risk).
7. Place sand on the tires that are on fire to smother the fire. An active borrow area with equipment is located immediately to the east of the WTPF. Sand also will be used to absorb water and oily residue.
8. Clean up and dispose of sand and oily residue following the contingency plan as described in the operations plan. The contaminated sand will be disposed of in the on-site landfill.

In order to properly manage a fire emergency, the WTPF has been provided with the emergency procedures, as well as a cellular telephone for on and off-site communications. The WTPF is located at the Southeast County Class I Landfill, which is equipped with bulldozers, front-end loaders, scrapers and other such equipment, which is available for use in any emergency. Soil is available on site within 100 feet of the WTPF. If needed, the soil may be used for smothering a fire.

In accordance with Waste Tire Rule 62-711.540(1)(f), the operator of the site shall notify the Florida Department of Environmental Protection in the event of a fire or other emergency, which poses an unanticipated threat to the public health or environment. Within two weeks of any emergency, a written report detailing the emergency actions taken to resolve the emergency and a review of the situation will be sent to the following:

Florida Department of Environmental Protection
Waste Management Division
13051 North Telecom Parkway
Temple Terrace, Florida 33637

Hillsborough County
Environmental Protection Commission
3629 Queen Palm Drive
Tampa, Florida 33619

C. EMERGENCY PHONE NUMBERS

NAME	DURING OPERATING HOURS	AFTER OPERATING HOURS
EMERGENCY	911	911
Larry Ruiz Manager, Landfill Operations Hillsborough County Solid Waste	813-671-7707	813-449-3229
Ernest Ely District Manager Waste Management	813-637-9203	813-918-5804
FDEP Florida Department of Environmental Protection	813-632-7600	1-800-320-0519 (Emergency Response)
HCEPC Hillsborough County Environmental Protection Commission	813-627-2600	813-627-2600

D. NATURAL DISASTERS

In the event of a flood, hurricane or other natural disaster, the procedures in the Solid Waste Management Division's Comprehensive Emergency Plan (CEMP) will be immediately implemented. The CEMP is a general document that is applicable to all facilities operated by the SWMD and contains applicable and specific procedures that can be applied to the operations of the WTPF. The following sections from the CEMP are still the governing document for the facility.

- To the extent possible, SWMD sites will secure all equipment to protect it from flying debris or becoming flying debris.
- All gasoline powered equipment must be topped off with fuel.
