NOTICE OF PERMIT ISSUANCE

April 4, 2016

In the matter of an
Application for Permit by:

DEP File No. 0064386-005-WT
Jackson County

Sent by Electronic Mail – Received Receipt Requested
TDSMRO@MSN.com

Mr. Jim Merrifield, President
J.E. Merrifield, Inc.
Post Office Box 550
Cottondale, Florida, 32431

Dear Mr. Merrifield:

Enclosed is the permit to operate a Waste Tire Processing Facility known as Tire Disposal Services (DEP Permit No. 0064386-005-WT; Facility Identification No.: 6475). This facility is located at 3053 Barnes Lane, Cottondale, Jackson County, Florida 32431. The permit is issued pursuant to Section 403.707, Florida Statutes (F.S.) and Chapter 62-711, Florida Administrative Code (F.A.C.).

A person whose substantial interests are affected by this permit may petition for an administrative proceeding (hearing) in accordance with Section 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 2600 Blair Stone Road, Tallahassee 32399-2400, within 14 days of receipt of this Permit. Petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. Failure to file a petition within this time period shall constitute a waiver of any right such person may have to request an administrative determination (hearing) under Section 120.57, F.S.

The Petition shall contain the following information:

- (a) The name and address of each agency affected and each agency's file or identification number, if known;
- (b) The name, address, and telephone number of the petitioner; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination;
- (c) A statement of when and how the petitioner received notice of the agency decision;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action;

- (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action, including an explanation of how the alleged facts relate to the specific rules or statutes; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action petitioner wishes the agency to take with respect to the agency's proposed action.

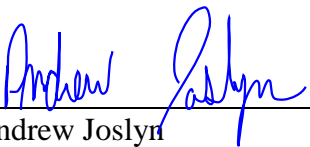

If a petition is filed, the administrative hearing process is designed to formulate agency action. Accordingly, the Department's final action may be different from the position taken by it in this permit. Persons whose substantial interests will be affected by any decision of the Department with regard to the application have the right to petition to become a party to the proceeding. The petition must conform to the requirements specified above and be filed (received) within 14 days of receipt of this notice in the Office of General Counsel at the above address of the Department. Failure to petition within the allowed time frame constitutes a waiver of any right such person has to request a hearing under Section 120.57, Florida Statutes, and to participate as a party to this proceeding. Any subsequent intervention will only be at the approval of the presiding officer upon motion filed pursuant to Rule 28-5.207, F.A.C.

This permit is final and effective on the date filed with the Clerk of the Department unless a petition is filed in accordance with the above paragraphs or unless a request for extension of time in which to file a petition is filed within the time specified for filing a petition and conforms to Rule 62-103.070, F.A.C. Upon timely filing of a petition or a request for an extension of time, this permit will not be effective until further Order of the Department.

When the Order (Permit) is final, any party to the Order has the right to seek judicial review of the Order pursuant to Section 120.68, Florida Statutes, by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Office of General Counsel, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400; and by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 days from the date the Final Order is filed with the Clerk of the Department.

Executed in Pensacola, Florida.

ATTACHMENT 1 - Time Sensitive Action Chart

If any of the time deadlines in the Time Sensitive Action Chart are inconsistent with the time deadlines in the permit conditions, the time deadline in the permit condition shall be followed.

ATTACHMENT 2 – Site Plan

ATTACHMENT 3 – Waste Tire Processing Facility Quarterly Report, [Form 62-701.900\(21\)](#)

1.0 Permitted Facility Description

Issuance of this permit is under the provisions of Chapter 403, Florida Statutes (F.S.), Chapter 62-701, Florida Administrative Code (F.A.C.), and Chapter 62-711, F.A.C. The above named applicant is hereby authorized to perform the work or operate the facility as submitted and shown in the application, drawing(s), plans, and other documents attached hereto and made a part hereof and specifically described as follows:

Operate a Waste Tire Processing Facility, located at 3053 Barnes Lane, Cottondale, Jackson County, Florida 32431. The facility utilizes a shredder and a chopper to process waste tires. Processed tires are transported to the Springhill Regional Landfill, located in Jackson County. The facility site layout is shown on Attachment 2. The maximum amount of whole waste tires that can be stored at the facility at one time is 60 tons. The maximum amount of processed tires that can be stored at the facility at one time is 20 tons. The maximum daily throughput is 1,200 tires per day, and the annual maximum throughput is 312,000 tires per year.

2.0 General Conditions

General Conditions are in Appendix 1

3.0 Specific Conditions

3.1 General

The Department may modify these conditions or impose new conditions, as it deems necessary to assure compliance with the provisions of Chapter 403, F.S., Chapter 62-701, F.A.C., Chapter 62-711, F.A.C., and other applicable regulations. [Rule 62-4.070(1), F.A.C.]

3.2 Construction

The Department shall be notified and prior approval shall be obtained of any changes or revisions proposed during operation or construction under this permit.
[Rule 62-4.070(1), F.A.C.]

3.3 Operations

- A. This facility shall be operated in accordance with the Operation Plan submitted with the permit application received January 29, 2016, and subsequent additional information. Updates shall be made no less frequently than upon permit renewal. The Department shall be notified of changes to the plan other than those required for routine maintenance.
- B. Access to the disposal facility shall be controlled during the active life of the facility through the use of fences, gates, natural barriers or other means.
[Rule 62-711.540(3) (d), F.A.C.]
- C. Stormwater shall be controlled during operation under this permit in accordance with permit application received January 29, 2016, and subsequent additional information.
- D. The facility shall be managed in such a way as to divert stormwater or flood waters around or away from the storage piles.
[Rule 62-711.540(3) (a), F.A.C.]
- E. Waste tires may be stored outside or on the facility's trailer. Outdoor waste tire piles shall have no greater than the following maximum dimensions:
 - 1. Width: no greater than 50 feet;
 - 2. Area: no greater than 10,000 square feet; and
 - 3. Height: no greater than 15 feet.
[Rule 62-711.540(3)(b), F.A.C.]
- F. Any residuals from waste tire processing must be managed so as to be contained on facility and must be controlled and disposed of in a permitted solid waste management facility or properly recycled.
[Rule 62-711.540(5), F.A.C.]
- G. If the facility receives waste tires from the public, a sign shall be posted at the entrance of the facility stating operating hours, cost of disposal and facility rules.
[Rule 62-711.540(1) (a), F.A.C.]
- H. Fuels, solvents, lubricants, and other maintenance materials shall be stored in secure areas separate from the waste tire storage or processing areas.
- I. This facility shall have a least one attendant present when the facility is open for business if the facility receives waste tires from the public.
[Rule 62-711.540(1) (c), F.A.C.]

- J. No operations involving the use of open flames shall be conducted within 25 feet of the waste tire pile.
[Rule 62-711.540(1) (b), F.A.C.]
- K. The permittee shall provide for control of mosquitoes and rodents so as to protect the public health and welfare.
[Rule 62-711.540(1) (j), F.A.C.]
- L. An approach and access road to the waste tire facility shall be kept passable for any motor vehicle at all times.
[Rule 62-711.540(1) (k), F.A.C.]
- M. The facility shall be bermed or given other adequate protection if necessary to keep liquid runoff from a potential waste tire fire from entering water bodies.
[Rule 62-711.540(3) (e), F.A.C.]
- N. The facility shall be kept free of grass, underbrush, and other potentially flammable vegetation at all times.
[Rule 62-711.540(3) (f), F.A.C.]
- O. At least 75 percent of the whole tires, used tires, and processed tires that are delivered to or are contained on the site of the waste tire processing facility at the beginning of each calendar year shall be processed and removed for disposal or recycling from the facility during the year.
[Rule 62-711.530(3), F.A.C.]
- P. A 50-foot wide fire land shall be placed around the perimeter of each outdoor waste tire pile. Access to the fire land for emergency vehicles must be unobstructed at all times.
[Rule 62-711.540(3)(c), F.A.C.]

3.4 Fire Protection

- A. Fire protection services for the facility shall be assured through notification to local fire protection authorities. A fire safety survey shall be conducted at least annually and the survey report shall be made part of the next quarterly report.
- B. The permittee shall prepare and keep at the facility an emergency preparedness manual. A copy of the current manual shall be kept at an off-site location designated by the operator. The manual shall be updated at least once a year and upon changes in operations at the facility. The manual shall contain the following elements:
 - 1. A list of names and numbers of persons to be contacted in the event of a fire, flood, or other emergency;
 - 2. A list of the emergency response equipment at the site, its location, and how it should be used in the event of a fire or other emergency; and

3. A description of the procedures that should be followed in the event of a fire, including procedures to contain and dispose of the oily material generated by the combustion of large numbers of waste tires.
- C. The permittee shall immediately notify the Department in the event of a fire or other emergency, which poses an unanticipated threat to the public health or the environment. Within two weeks of any emergency, the operator of the site shall submit to the Department a written report on the emergency. This report shall describe the origins of the emergency, the actions that were taken to deal with the emergency, the results of the actions that were taken, and an analysis of the success or failure of the actions.

[Rule 62-711.540(1) (d), (e) & (f), F.A.C.]

3.5 Air Operation

- A. Industrial, Commercial, and Municipal Open Burning Prohibited. Open burning in connection with industrial, commercial, or municipal operations is prohibited, except when:
1. Open burning is determined by the Department to be the only feasible method of operation and is authorized by an air permit issued pursuant to Chapter 62-210 or 62-213; F.A.C., or,
 2. An emergency exists which requires immediate action to protect human health and safety; or,
 3. A county or municipality would use a portable air curtain incinerator to burn yard trash generated by a hurricane, tornado, fire or other disaster and the air curtain incinerator would otherwise be operated in accordance with the permitting exemption criteria of Rule 62-210.300(3), F.A.C. [Rule 62-296.320(3), F.A.C.]
- B. Unconfined Emissions of Particulate Matter No person shall cause, let, permit, suffer or allow the emissions of unconfined particulate matter from any activity, including vehicular movement; transportation of materials; construction; alteration; demolition or wrecking; or industrially related activities such as loading, unloading, storing or handling; without taking reasonable precautions to prevent such emissions.
[Rule 62-296.320(4) (c) 1, F.A.C.]
- C. The reasonable precautions to prevent emissions of unconfined particulate matter at this facility shall be:
1. The posted and enforced plant traffic area speed limit of 10 mph.
 2. The plant traffic areas are to be kept adequately damp.

[Rules 62-296.320(4) (c) 2 & 3 and Rule 62-4.070, F.A.C.]

- D. Should the reasonable precautions listed in Specific Condition No. 3.5.C. be inadequate, additional reasonable precautions may be required, including (but not limited to) the following:
1. Paving and maintenance of roads, parking areas, and yards
 2. Application of asphalt, oil chemicals, or other dust suppressants to unpaved roads, yards, open stockpiles, and similar emission units.
 3. Removal of particulate matter from roads and other paved areas under the control of Permittee of the emission unit to prevent re-entrainment, and from buildings or work areas to prevent particulate matter from becoming airborne.
 4. Landscaping or planting of vegetation, and
 5. Relocation of emission source

In determining what constitutes reasonable precautions for a particular facility, the Department shall consider the cost of the control technique or work practice, the environmental impacts of the technique or practice, and the degree of reduction of emissions expected from a particular technique or practice.

[Rules 62-296.320(4) (c) 3 & 4 and Rule 62-4-070, F.A.C.]

3.6 Record Keeping and Reporting

- A. The permittee shall record and maintain for three years the following information regarding their activities, which records shall be available for inspection by Department personnel during normal business hours:
1. For all waste tires shipped from the facility:
 - a. The name of the waste tire collector
 - b. The waste tire collector registration number
 - c. The quantity of waste tires shipped with that collector
 2. For all waste tires shipped from the facility, if the waste tires were shipped with a person who is not a waste tire collector:
 - a. The number of tires shipped
 - b. The person's name, address and telephone number
 - c. The place where the waste tires were deposited
 3. For all waste tires received at the facility:
 - a. The name of the waste tire collector
 - b. The waste tire collector registration number
 - c. The quantity of waste tires received from that collector
 4. If more than five tires were received by a person who is not a waste tire collector:
 - a. The number of tires received
 - b. The person's name, address and telephone number
 5. For all waste tires removed for recapping
 - a. The quantity and type removed
 - b. The name and location of the recapping facility receiving the tires.

- B. Permittee shall submit quarterly reports to the Department that summarize the information collected in Paragraph 3.6.A. These reports shall be submitted by the 20th day of January, April, July, and October of each year. The report shall be submitted to the Department on [Form 62-701.900\(21\)](#) (ATTACHMENT 3).
- C. Send all submittals in response to this specific condition to:

Florida Department of Environmental Protection
Northwest District Office
Solid Waste Section
160 W. Government Street, Suite 308
Pensacola, Florida 32502

[Rule 62-711.530(4), F.A.C. and Rule 62-711.530(5), F.A.C.]

4.0 Financial Assurance

- 4.1 The permittee shall maintain, in good standing, the financial assurance mechanisms established to demonstrate proof of financial assurance. Support documentation and evidence of inflation adjustment increases shall be submitted within the time frames specified in Rule 62-701.630, F.A.C. All submittals in response to this specific condition shall be sent to:

Florida Department of Environmental Protection
Financial Coordinator - Solid Waste Section
2600 Blair Stone Road, MS 4565
Tallahassee, Florida 32399-2400 Tallahassee, Florida 32399-2400

- 4.2 The permittee shall annually re-estimate the closure cost estimate(s) for the financial assurance. The permittee shall submit the estimate(s) at least 60 days prior to the anniversary date of the instrument. All submittals in response to this specific condition shall be sent to:

Florida Department of Environmental Protection
Northwest District
Solid Waste Section
160 W. Government Street, Suite 308
Pensacola, Florida 32502

With a copy to:

Florida Department of Environmental Protection
Financial Coordinator - Solid Waste Section
2600 Blair Stone Road, MS 4565
Tallahassee, Florida 32399-2400

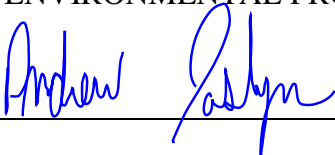

5.0 Administrative

- 5.1 For uninterrupted operation, a permit renewal application must be submitted 60 days prior to the expiration of this permit.
[Rule 62-4.050(2), F.A.C.]
- 5.2 A copy of the Department approved engineering drawings, plans, reports, operational plan, and supporting information shall be kept on site at all times and be available for Department inspection.
[Rule 62-4.070(1), F.A.C.]
- 5.3 Cite the Facility Identification Number and DEP File Number on all reports and correspondence concerning this facility
[Rule 62-4.070(1), F.A.C.]
- 5.4 The Department telephone number for reporting emergencies involving a significant threat to human health or the environment is (850) 413-9911, day or night.
- 5.5 This and other documents for this facility may be viewed at the following internet link:

https://fldeploc.dep.state.fl.us/WWW_WACS/REPORTS/SW_Facility_Docs.asp?wacsid=6475

STATE OF FLORIDA DEPARTMENT
OF ENVIRONMENTAL PROTECTION

Andrew Joslyn
Permitting Program Administrator

Northwest District
160 W. Government Street, Suite 308
Pensacola, Florida 32502-5740
850-595-8300

General Conditions

1. The terms, conditions, requirements, limitations and restrictions set forth in this permit, are “permit conditions” and are binding and enforceable pursuant to Sections 403.141, 403.727, or 403.859 through 403.861, F.S. The permittee is placed on notice that the Department will review this permit periodically and may initiate enforcement action for any violation of these conditions.
2. This permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in subsections 403.987(6) and 403.722(5), F.S., the issuance of this permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state, or local laws or regulations. This permit is not a waiver of or approval of any other department permit that may be required for other aspects of the total project which are not addressed in this permit.
4. This permit conveys no title to land or water, does not constitute State recognition or acknowledgment of title, and not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.
5. This permit does not relieve the permittee from liability for harm or injury to human health or welfare, animal, or plant life, or property caused by the construction or operation of this permitted source, or from penalties therefore; nor does it allow the permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by an order from the Department.
6. The permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the permittee to achieve compliance with the conditions of this permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the permit and when required by Department rules.
7. The permittee, by accepting this permit, specifically agrees to allow authorized Department personnel, upon presentation of credentials or other documents as may be required by law and at reasonable times, access to the premises where the permitted activity is located or conducted to:

- a. Have access to and copy any records that must be kept under conditions of the permit;
 - b. Inspect the facility, equipment, practices, or operations regulated or required under this permit; and
 - c. Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this permit or Department rules. Reasonable time may depend on the nature of the concern being investigated.
8. If, for any reason, the permittee does not comply with or will be unable to comply with any condition or limitation specified in this permit, the permittee shall immediately provide the Department with the following information:
 - a. A description of and cause of noncompliance; and
 - b. The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance. The permittee shall be responsible for any and all damages, which may result and may be subject to enforcement action by the Department for penalties or for revocation of this permit.
9. In accepting this permit, the permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source which are submitted to the Department may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Sections 403.111 and 403.73, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.
10. The permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance; provided, however, the permittee does not waive any other rights granted by Florida Statutes or Department rules. A reasonable time for compliance with a new or amended surface water quality standard, other than those standards addressed in Rule 62-302.500, F.A.C., shall include a reasonable time to obtain or be denied a mixing zone for the new or amended standard.
11. This permit is transferable only upon Department approval in accordance with Rules 62-4.120 and 62-730.300, F.A.C., as applicable. The permittee shall be liable for any non-compliance of the permitted activity until the Department approves the transfer.

12. This permit or a copy thereof shall be kept at the work site of the permitted activity.
13. This permit also constitutes:
 - a. Determination of Best Available Control Technology (BACT)
 - b. Determination of Prevention of Significant Deterioration (PSD)
 - c. Certification of compliance with State Water Quality Standards (Section 401, PL 92-500)
 - d. Compliance with New Source Performance Standards
14. The permittee shall comply with the following:
 - a. Upon request, the permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically unless otherwise stipulated by the Department.
 - b. The permittee shall hold at the facility or other location designated by this permit records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by the permit, copies of all reports required by this permit, and records of all data used to complete the application for this permit. These materials shall be retained at least three years from the date of the sample, measurement, report, or application unless otherwise specified by Department rule.
 - c. Records of monitoring information shall include:
 - (1) The date, exact place, and time of sampling or measurements;
 - (2) The person responsible for performing the sampling or measurements;
 - (3) The dates analyses were performed;
 - (4) The person responsible for performing the analyses;
 - (5) The analytical techniques or methods used;
 - (6) The results of such analyses.
15. When requested by the Department, the permittee shall within a reasonable time furnish any information required by law, which is needed to determine compliance with the permit. If the permittee becomes aware the relevant facts were not submitted or were incorrect in the permit application or in any report to the Department, such facts or information shall be corrected promptly.

Facility Operation Process

December 2015

Description

1. Whole tires will be delivered to site by truck.
2. Tires will be taken directly from truck and inserted into Harvest Hand tire chopper to reduce tire size.
3. Chopped tires are fed into UNTHA RS-50 tire shredder.
4. Processed tire (pieces 4 square inches or less) will travel from shredder on conveyer system to truck.
5. Truck will transport and dispose of processed tires at the Springhill Regional Landfill.

Throughput

Maximum Daily: 1200 tires/day

Planned Daily: 1200 tires/day

Annual Daily: 312,000 tires/year

EMERGENCY PREPAREDNESS MANUAL

PREPARED FOR:

TIRE DISPOSAL SERVICES

3053 BARNES LANE

COTTONDALE, FL 32431

(850) 526-3813

OWNER/OPERATOR: JIM MERRIFIELD

December, 2015

EMERGENCY CONTACTS

In the event of a fire, flood or other emergency, the following people should be contacted:

1. Jason Merrifield: (850) 557-4040
2. Charlene Merrifield: (850) 482-6326
3. Alan Pelt: (850) 482-6614

EMERGENCY RESPONSE EQUIPMENT

1. Two onsite fire extinguishers are located at both entrances of the shredder bay on the south and east walls. Follow directions on fire extinguisher to put out flames if possible.
2. The City of Cottondale Volunteer Fire Dept. is located approximately 4 miles from the facility. Contact the Fire Dept. immediately for assistance.

EMERGENCY PROCEDURES

In the event of a fire at the facility, follow the procedures listed below:

1. If fire can be contained with onsite fire extinguisher, do so.
2. Call "911" and explain emergency.
3. Evacuate area and adjacent buildings immediately.
4. Remain at a safe distance until fire is extinguished.
5. Since whole waste tires are not stored onsite, oily residue left from burning tires shall be minimal. However, any residue shall be collected and discarded into tractor trailer.
6. Any areas that contained oily residue shall be washed down in such a way that there is no runoff whatsoever from the site.

Time Sensitive Action Chart for Solid Waste Reports

If any of the time deadlines in the Time Sensitive Action Chart are inconsistent with the time deadlines in the permit conditions, the time deadline in the permit condition shall be followed.

Fire safety survey shall be conducted at least annually and the report submitted with next quarterly report
