Re: In Compliance Letter
Sarasota Central County Landfill Tire Processing
WACS No., 51614
Sarasota County

Dear Ms. Rose,

Department personnel conducted a compliance inspection of the above-referenced facility on June 30, 2016. Based on the information provided during the inspection the facility was determined to be in compliance. A copy of the inspection report is attached for your records.

The Department appreciates your efforts to maintain this facility in compliance with state and federal rules. Should you have any questions or comments, please contact Rick Roudebush at 239/344-5653 or via e-mail at: rick.roudebush@dep.state.fl.us.

Sincerely,

A handwritten signature in blue ink, appearing to read "Ryan Snyder", is written over a horizontal line.

FACILITY INFORMATION:

Facility Name: SARASOTA CENTRAL LANDFILL COMPLEX
On-Site Inspection Start Date: 07/13/2016
On-Site Inspection End Date: 07/15/2016
WACS No.: 51614
Facility Street Address: 4000 KNIGHTS TRAIL ROAD
City: NOKOMIS
County Name: SARASOTA
Zip: 34275

INSPECTION PARTICIPANTS:

(Include ALL Landfill and Department Personnel with Corresponding Titles)

Principal Inspector: Rick R Roudebush, Environmental Specialist

Other Participants: Lois Rose, Landfill Operations Manager

INSPECTION TYPE:

Routine Operation Inspection for Landfill - Class I

Routine Operation Inspection for WPF - Material Recovery Facility - C&D

ATTACHMENTS TO THE INSPECTION CHECK LIST:

This Cover Page to the Inspection Checklist may include any or all of the following attachments as appropriate.

1.0 - SECTION 1.0 - FILE REVIEW

2.0 - SECTION 2.0 - LANDFILL OPERATION AND MAINTENANCE

4.0 - SECTION 4.0 - WASTE PROCESSING FACILITIES

Inspection Date: 07/15/2016

1.0 - SECTION 1.0 - FILE REVIEW

Requirements:

The requirements listed in this section provide an opportunity for the Department's inspector to indicate the conditions found at the time of the inspection. A "Not Ok" response to a requirement indicates either a potential violation of the corresponding rule or an area of concern that requires more attention. Both potential violations and areas of concern are discussed further at the end of this inspection report.

COMMENTS:

On July 13, 2016, an annual operations inspection was conducted at this facility.

Item 2.6 - At the time of the evaluation, the facility was initiating removal of all electrical wastes (e-wastes - computer processing units and associated equipment). This e-waste has been stored at the landfill in this location (asphalt pad - also area of waste tire processing) since February 2015. The e-wastes were being transported to a recycling facility in California. However, when the plastic wrapped skids of e-wastes were moved to be loaded onto the trucks staining could be noted under the rows of e-wastes on the pad, indicating the possibility of potential leaching of heavy metals from components inside the e-wastes (see attached pictures). As stated above, this storage pad is also used for collection and processing of waste tires, but ultimately this areas will be used as solid waste disposal (landfill). Storm water is drained to a central location at the back middle (east) part of the pad. Standing water and sediments from the pad were noted in the area of the drain during this evaluation.

A request was made during this inspection to have the sediment build up and standing storm water in the drainage pipe sampled and assessed for the eight (8) RCRA heavy metals to determine if any of these constituents have possibly leached out of the e-wastes and onto the storage pad and potentially off of the pad and into the storm water control system.

On Wednesday July 27, 2016, SCCLF submitted the requested sampling data results. These results were reviewed by the inspector and representatives from the Hazardous Waste Compliance Program. Both programs agreed proper testing was conducted and the results were well below any compliance regulatory levels for the metals, indicating there should be no potential future environmental impact (i.e. monitoring well contamination) as the landfill develops over this area.

No other violations or concerns were noted during this inspection.
