Re: Highlands County - SW
Florida Tire Terminal
Permit No. 0245850-002-WT/05
WACS ID No. 00094452

Enclosed is Permit No. 0245850-002-WT/05 to operate a Waste Tire Processing Facility, specifically identified as Florida Tire Terminal, located at 400 Feagin Street, Avon Park in Highlands County, Florida, issued under Sections 403.061, 403.087 and 403.707 of the Florida Statutes (F.S.) and Florida Administrative Code (F.A.C.) Rules 62-4, 62-160, 62-302, 62-522, 62-701 and 62-711.

NOTICE OF RIGHTS

Any party to this order (permit) has the right to seek judicial review of the permit under Section 120.68 of the Florida Statutes, by the filing of a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure, with the Clerk of the Department in the office of General Counsel, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000 and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice of appeal must be filed within thirty (30) days after this notice is filed with the Clerk of the Department.

Executed in Lee County, Florida.

FACILITY NAME: Florida Tire Terminal

PERMIT NO.: 0245850-002-WT/05
WACS Facility ID: 00094452

SECTION 1 - SUMMARY INFORMATION

A. Authorization

The Permittee is hereby authorized to operate a waste tire processing facility in accordance with the specific and general conditions of this Permit and any documents attached to this Permit or specifically referenced in this Permit and made a part of this Permit.

This solid waste operation Permit is issued under the provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Chapters 62-4, 62-701 and 62-711.

This Permit does not relieve the Permittee from complying with any other appropriate local zoning or land use ordinances or with any other laws, rules or ordinances. Receipt of any permit from the Department does not relieve the applicant from obtaining other federal, state, and local permits and/or modifications required by law, including those from other sections within the Department or of the Water Management District.

B. Facility Location

Facility Location (main entrance): 400 Feagin Street, Avon Park in
Highlands County, Florida

Location Coordinates: Section: 22, Township: 33 S, Range: 28 E
Latitude: 27° 35' 31", Longitude: 81° 30' 18"

C. Facility Description

Operate an existing used tire dealer business as a waste tire processing facility (based on storage of used tires) that specializes in repairing and selling used tires or transferring to a permitted waste tire processing facility for processing/disposal. The number of used tires stored shall not exceed 15,000 in accordance with the Approval of Alternate Procedures (Case SWAP-04-02). Actual operating rates may vary depending on business conditions.

D. Appendices Made Part of This Permit

APPENDIX 1 – General Conditions

APPENDIX 2 – Approved Application Documents

E. Attachments for Informational Purposes Only

[There are no attachments for informational purposes required for this facility.]

PERMITTEE NAME: Beck's Tire Service, Inc.
FACILITY NAME: Florida Tire Terminal

PERMIT NO.: 0245850-002-WT/05
WACS Facility ID: 00094452

SECTION 2 - SPECIFIC CONDITIONS

A. Administrative Requirements

1. Documents Part of This Permit. The permit application **as finally revised, replaced or amended** in response to the Department's Request(s) for Additional Information are contained in the Department's files and are made a part of this Permit. Those documents that make up the complete permit application are listed in APPENDIX 2.
2. Permit Modification. Any change to construction, operation or monitoring requirements of this Permit may require a modification to this Permit, in accordance with the provisions of Rule 62-701.320(4), F.A.C.
3. Permit Renewal. In order to ensure uninterrupted operation of this facility, a timely and sufficient permit renewal application must be submitted to the Department in accordance with Rule 62-701.320(10), F.A.C. A permit application submitted at least 61 days prior to the expiration of this Permit is considered timely and sufficient.
4. Transfer of Permit or Name Change. In accordance with Rule 62-701.320(11), F.A.C., the Department must be notified in writing within 30 days: (1) of any sale or conveyance of the facility; (2) if a new or different person takes ownership or control of the facility; or (3) if the facility name is changed.

B. Construction Requirements

1. General Construction Requirements. All construction shall be done in accordance with the approved Construction Plan. The Department shall be notified before any changes, other than minor deviations, to the approved Construction Plan are implemented in order to determine whether a permit modification is required.
2. Certification of Construction Completion. Upon completion of construction and prior to accepting any used tires at the facility, the engineer of record shall certify to the Department in accordance with Rule 62-701.320(9)(b), F.A.C., that the permitted construction is complete and was done in substantial conformance with the approved construction plans except where minor deviations were necessary. All deviations shall be described in detail and the reasons therefore enumerated.
3. Approval of Certification. The Permittee shall not accept used tires at the facility until one of the following has occurred: (1) the Department has stated in writing that it has no objection to the certification of construction completion; or (2) at least 30 days have passed since the certification was submitted and the Department has not responded in writing to the certification.

PERMITTEE NAME: Beck's Tire Service, Inc.
FACILITY NAME: Florida Tire Terminal

PERMIT NO.: 0245850-002-WT/05
WACS Facility ID: 00094452

C. Operation Requirements

1. General Operating Requirements. The Permittee shall operate the facility in accordance with the approved Operation Plan. The Department shall be notified before any changes, other than minor deviations, to the approved Operation Plan are implemented in order to determine whether a permit modification is required.
2. Authorized Waste and Material Types. The facility is authorized to manage only the following:
 - a) Used tires stored shall not exceed 15,000, in accordance with the Approval of Alternate Procedures (Case SWAP-04-02), as defined in Rule 62-701.200, F.A.C.
3. Unauthorized Waste Types. The facility is not authorized to accept or manage any waste types not listed in C.2 above. Any unauthorized waste inadvertently received by the facility shall be managed in accordance with the approved Operation Plan.
4. Maximum Storage Quantities.
 - a) The maximum permitted capacity for storage and processing of used tires stored shall not exceed 15,000, in accordance with the Approval of Alternate Procedures (Case SWAP-04-02), as defined in Rule 62-701.200, F.A.C.
5. Facility Capacity. If the facility has reached its permitted capacity for storage of used tires, the Permittee shall not accept additional used tires for processing until sufficient capacity has been restored.
6. Storage and Management. At least seventy-five (75) percent of the used tires and waste tires that are delivered to or are stored by the facility at the beginning of each calendar year must be removed for proper use, recycling or disposal from the facility during the year.
7. The site of operations shall be easily accessible by trucks and cars, with all-weather access roads maintained in a clean condition.
8. The Permittee shall strictly abide by the indoor and outdoor storage capacities furnished in the application for permit and to the quantity for which the financial responsibility is submitted. For storage of a larger quantity of used tires (by weight, volume or number), the Permittee shall demonstrate the indoor and outdoor capacities for storage available on the site and furnish the corresponding financial responsibility. However, the number of used tires stored shall not exceed 15,000 in accordance with the Approval of Alternate Procedures (Case SWAP-04-02).

PERMITTEE NAME: Beck's Tire Service, Inc.
FACILITY NAME: Florida Tire Terminal

PERMIT NO.: 0245850-002-WT/05
WACS Facility ID: 00094452

9. Used tires shall not be processed on-site in a manner rendering them to be no longer whole.
10. The Permittee shall comply with the fire control requirements of the City of Avon Park Fire Department, which among other things includes compliance with the National Fire Protection Association (NFPA) Standard 231d, Standard for Storage of Rubber Tires (current edition). A fire survey shall be conducted semi-annually by the local fire authority showing that the Facility does not represent a fire hazard to the local community. Results of the survey shall be submitted to the Department in January and July of each year.
11. Contingency Plan and Notification of Emergencies. The Permittee shall notify the Department in accordance with the approved Emergency Preparedness Manual. Notification shall be made to the Solid Waste Section of DEP's South District Office at 239-344-5600.
12. Housekeeping. The facility shall be operated to control dust, vectors, litter and objectionable odors. All used tires shall be stored in a manner that does not create mosquito or rat harborage. Records documenting the type and quantity of insecticides and rodenticides (approved by the Department of Agriculture and Consumer Services) used to control vectors shall be kept on-site, and shall be made available to Department personnel upon request.

D. Closure Requirements

1. General Closure Requirements. The Permittee shall close the waste tire processing facility in accordance with the provisions of the approved Closure Plan. The Department shall be notified before any changes, other than minor deviations, to the approved Closure Plan are implemented in order to determine whether a permit modification is required.
2. Notifications. The Permittee shall notify the Department prior to ceasing operations, and shall submit a written certification to the Department when closure is complete.

E. Financial Assurance and Cost Estimates

1. Financial Assurance Mechanism. The permittee shall maintain, in good standing, the financial assurance mechanisms established to demonstrate proof of financial assurance. Support documentation and evidence of inflation adjustment increases shall be submitted within the time frames specified in Rule 62-701.630, F.A.C.

All submittals in response to this specific condition shall be sent to:

Florida Department of Environmental Protection
Financial Coordinator - Solid Waste Section
2600 Blair Stone Road, MS 4565
Tallahassee, Florida 32399-2400

PERMITTEE NAME: Beck's Tire Service, Inc.
FACILITY NAME: Florida Tire Terminal

PERMIT NO.: 0245850-002-WT/05
WACS Facility ID: 00094452

2. Annual Cost Estimates. The Permittee shall annually adjust the closure cost estimate(s) for inflation using Form 62-701.900(28). Adjustments shall be made in accordance with Rule 62-711.500(3), F.A.C. and, as applicable, 40 CFR Part 264, Subpart H. An owner or operator using a letter of credit, guarantee bond, performance bond, financial test, corporate guarantee, trust fund or insurance shall submit the adjusted cost estimate(s) between January 1 and March 1. An owner or operator using an escrow account shall submit the adjusted estimate(s) between July 1 and September 1.

All submittals in response to this specific condition shall be sent to:

Florida Department of Environmental Protection
South District Office
2295 Victoria Avenue, Suite 364
Fort Myers, Florida 33901

With a copy to:

Florida Department of Environmental Protection
Financial Coordinator - Solid Waste Section
2600 Blair Stone Road, MS 4565
Tallahassee, Florida 32399-2400

Executed in Lee County, Florida.

APPENDIX 1 - General Conditions

1. The terms, conditions, requirements, limitations, and restrictions set forth in this Permit are "permit conditions" and are binding and enforceable pursuant to Sections 403.141, 403.727, or 403.859 through 403.861, F.S. The Permittee is placed on notice that the Department will review this Permit periodically and may initiate enforcement action for any violation of these conditions.
2. This Permit is valid only for the specific processes and operations applied for and indicated in the approved drawings or exhibits. Any unauthorized deviation from the approved drawings, exhibits, specifications, or conditions of this Permit may constitute grounds for revocation and enforcement action by the Department.
3. As provided in Subsections 403.087(6) and 403.722(5) F.S., the issuance of this Permit does not convey any vested rights or any exclusive privileges. Neither does it authorize any injury to public or private property or any invasion of personal rights, nor any infringement of federal, state or local laws or regulations. This Permit is not a waiver of or approval of any other Department permit that may be required for other aspects of the total project which are not addressed in the Permit.
4. This Permit conveys no title to land or water, does not constitute State recognition or acknowledgement of title, and does not constitute authority for the use of submerged lands unless herein provided and the necessary title or leasehold interests have been obtained from the State. Only the Trustees of the Internal Improvement Trust Fund may express State opinion as to title.
5. This Permit does not relieve the Permittee from liability for harm or injury to human health or welfare, animal or plant life, or property caused by the construction or operation of this permitted source or from penalties therefore; nor does it allow the Permittee to cause pollution in contravention of Florida Statutes and Department rules, unless specifically authorized by any order from the Department.
6. The Permittee shall properly operate and maintain the facility and systems of treatment and control (and related appurtenances) that are installed and used by the Permittee to achieve compliance with the conditions of this Permit, as required by Department rules. This provision includes the operation of backup or auxiliary facilities or similar systems when necessary to achieve compliance with the conditions of the Permit and when required by Department rules.
7. The Permittee, by accepting this Permit, specifically agrees to allow authorized Department personnel, upon presentation of credential or other documents as may be required by law, and at reasonable times, access to the premises where the permitted activity is located or conducted to:
 - (a) Have access to and copy any records that must be kept under the conditions of the Permit;

PERMITTEE NAME: Beck's Tire Service, Inc.
FACILITY NAME: Florida Tire Terminal

PERMIT NO.: 0245850-002-WT/05
WACS Facility ID: 00094452

- (b) Inspect the facility, equipment, practices, or operations regulated or required under this Permit; and
- (c) Sample or monitor any substances or parameters at any location reasonably necessary to assure compliance with this Permit or Department rules.

Reasonable time may depend on the nature of the concern being investigated.

8. If, for any reason the Permittee does not comply with or will be unable to comply with any condition or limitation specified in this Permit, the Permittee shall immediately provide the Department with the following information:
 - (a) A description of and cause of noncompliance; and
 - (b) The period of noncompliance, including dates and times; or, if not corrected, the anticipated time the noncompliance is expected to continue, and steps being taken to reduce, eliminate, and prevent recurrence of the noncompliance. The Permittee shall be responsible for any and all damages which may result and may be subject to enforcement action by the Department for penalties or revocation of this Permit.
9. In accepting this Permit, the Permittee understands and agrees that all records, notes, monitoring data and other information relating to the construction or operation of this permitted source, which are submitted to the Department, may be used by the Department as evidence in any enforcement case involving the permitted source arising under the Florida Statutes or Department rules, except where such use is prescribed by Sections 403.111 and 403.73, F.S. Such evidence shall only be used to the extent it is consistent with the Florida Rules of Civil Procedure and appropriate evidentiary rules.
10. The Permittee agrees to comply with changes in Department rules and Florida Statutes after a reasonable time for compliance, provided, however, the Permittee does not waive any other rights granted by Florida Statutes or Department rules. A reasonable time for compliance with a new or amended surface water quality standard, other than those standards addressed in Rule 62-302.500, F.A.C, shall include a reasonable time to obtain or be denied a mixing zone for the new or amended standard.
11. This Permit is transferable only upon Department approval in accordance with Rules 62-4.120 and 62-730.300, F.A.C, as applicable. The Permittee shall be liable for any noncompliance of the permitted activity until the transfer is approved by the Department.

PERMITTEE NAME: Beck's Tire Service, Inc.
FACILITY NAME: Florida Tire Terminal

PERMIT NO.: 0245850-002-WT/05
WACS Facility ID: 00094452

12. This Permit or a copy thereof shall be kept at the work site of the permitted activity.
13. This Permit also constitutes:
 - (a) Determination of Best Available Control Technology (BACT)
 - (b) Determination of Prevention of Significant Deterioration (PSD)
 - (c) Certification of compliance with State Water Quality Standards (Section 401, PL 92-500)
 - (d) Compliance with New Source Performance Standards
14. The Permittee shall comply with the following:
 - (a) Upon request, the Permittee shall furnish all records and plans required under Department rules. During enforcement actions, the retention period for all records will be extended automatically, unless otherwise stipulated by the Department.
 - (b) The Permittee shall hold at the facility or other location designated by this Permit, records of all monitoring information (including all calibration and maintenance records and all original strip chart recordings for continuous monitoring instrumentation) required by this Permit, copies of all reports required by this Permit, and records of all data used to complete the application for this Permit.
 - (c) Records of monitoring information shall include:
 1. the date, exact place, and time of sampling or measurements;
 2. the person responsible for performing the sampling or measurements;
 3. the dates analyses were performed;
 4. the person responsible for performing the analyses;
 5. the analytical techniques or methods used;
 6. the results of such analyses.
15. When requested by the Department, the Permittee shall, within a reasonable time, furnish any information required by law, which is needed to determine compliance with the Permit. If the Permittee becomes aware the relevant facts were not submitted or were incorrect in the Permit application or in any report to the Department, such facts or information shall be corrected promptly.

Form Title: Waste Tire Processing
Facility Permit Application

Effective Date: January 6, 2010

Incorporated in Rule 62-711.530(6)

Waste Tire Processing Facility Permit Application

Permit No. 0245850-001-WT / 02Renewal ☒Modification ☐Existing unpermitted facility ☐Proposed new facility ☐

Part I-General Information:

A. Applicant Information:

1. Applicant Name: BECK'S TIRE SERVICE INC.2. Applicant Street Address: 400 Feagin Street3. City: Avon Park County: Highlands Zip: 338254. Applicant Mailing Address: PO Box 17335. City: Avon Park County: Highlands Zip: 338266. Contact person: Robert A. Reisig Phone: (863)452-5788 FEID No: 43-0864539

7. Have any enforcement actions been taken by the Department against the applicant relating to the operation of any solid waste management facility in this state? This includes any Complaint, Notice of Violation, or revocation of a permit or registration, as well as any Consent Order in which a violation of Department rules is admitted. It does not include a Warning Letter, Warning Notice, Notice of Noncompliance, or other similar document which does not constitute agency action.

Yes ☐No ☒

If yes, attach a history and description of the enforcement actions.

B. Facility Information:

1. Facility Name: Florida Tire Terminal2. Facility Street Address (Main Entrance): 400 Feagin Street3. City: Avon Park County: Highlands Zip: 338254. Facility Mailing Address: PO Box 17335. City: Avon Park State: Highlands Zip: 338266. Contact Person: Robert A. Reisig Phone: (863)452-5788

7. Facility Location Coordinates:

Section: 22 Township: 33 South Range: 28 EastLatitude: 27 35' 31" Longitude: 81 30' 18"8. Anticipated date for starting construction N/A and for completion of construction N/A9. Anticipated date for receipt of tires Currently Active and for start of processing No Processing

5. Affiliation with facility: Manager

Part II-Operations:

A. Facility type (check appropriate box):

- ☒ Waste tire processing facility.
- ☐ Waste tire processing facility with on -site disposal of processed tires or processing residuals.
- ☐ Waste tire processing facility with on -site consumption of waste tires or processing residuals.
- ☐ Permitted solid waste management facility modification to allow wa ste tire site and processing.

B. Type of processing facility (check as many as apply):

- ☐Shredder ☐Cutter ☐Chopper ☐Incinerator only ☐Incinerator with energy recovery
☐Pyrolysis ☐Supplemental fuel user ☒Other, explain Transfer Station

C. Storage: Indicate the maximum quantities of whole waste tires, processed waste tires, and processing residuals, expressed in tons, to be stored at the facility, in accordance with Rule 62-711.530(2), F.A.C.

| | Outdoor Storage(tons) | Outdoor Storage (sq.ft) | Indoor Storage (tons) | Indoor Storage (sq.ft) | Total Storage (tons) |
|-----------------------|--------------------------|----------------------------|--------------------------|---------------------------|-------------------------|
| Whole waste tires: | <u>195</u> | <u>0</u> | <u>0</u> | <u>0</u> | <u>195</u> |
| Processed tires: | <u>0</u> | <u>0</u> | <u>0</u> | <u>0</u> | <u>0</u> |
| Processing residuals: | <u>0</u> | <u>0</u> | <u>0</u> | <u>0</u> | <u>0</u> |
| TOTALS: | <u>195</u> | <u>0</u> | <u>0</u> | <u>0</u> | <u>195</u> |

- D. For reporting quantity of tires in tons, tires will be: weighed on site ☐ weighed off site ☐
weights will be calculated ☒

- E. Facilities that will not be disposing of processed tires or processing residual on the facility site must indicate the permitted solid waste management facility where processed tires or residuals will be disposed.

1. Name of facility See Attachment under Application Tab

2. Street address: See Attachment under Application Tab

3. City: See Attachment under Application T County: See Attachment under Appli Zip: See Attachment

- F. Facilities that will be delivering processed tires to consuming facilities must describe the existing or proposed markets for those processed tires.

Non Applicable, Florida Tire Terminal deliver no processed tires.

Part III-Attachments:

A. Facility design

NOTE: All maps, plan sheets, drawings, isometrics, cross sections, or aerial photographs shall be legible; be signed and sealed by a registered professional engineer responsible for their preparation; be of appropriate scale to show clearly all required details; be numbered, referenced to narrative, titled, have a legend of symbols used, contain horizontal and vertical scales (where applicable), and specify drafting or origination dates; and use uniform scales as much as possible, contain a north arrow and use NGVD for all elevations.

1. A topographic or section map of the facility, including the surrounding area for one mile, no more than one year old, showing land use and zoning within one mile of the facility
2. A plot plan of the facility on a scale of not less than one inch equals 200 feet. At a minimum, the plot plan shall include
 - a. The facility design, including the location and size of all storage and processing areas for used tires, unprocessed waste tires, processed waste tires, and waste tire processing residuals;
 - b. All wetlands and water bodies within the facility or within 200 feet of any storage area;
 - c. Stormwater control measures, including ditches, dikes, and other structures;
 - d. Boundaries of the facility, legal boundaries of the land containing the facility, and any easements or rights of way that are within the facility or within 200 feet of any storage area;
 - e. Location, size, and depth of all wells within the facility or within 200 feet of any storage area;
 - f. All structures and buildings that are, or will be, constructed at the facility; include those used in storage and processing operations;
 - g. All areas used for loading and unloading;
 - h. All access roads and internal roads, including fire lanes;
 - i. Location of all fences, gates, and other access control measures; and
 - j. Location of all disposal areas within the facility.

B. Facility operation.

1. A description of the facility's operation, process and products including how waste tires will be received and stored.
2. A description of the equipment used for processing tires. This description shall include the make, model, and hourly capacity of each piece of equipment.
3. Description of the waste from the process, the amount of waste expected and how and where this waste will be disposed of.
4. Statement of the maximum daily throughput and the planned daily and annual throughput.
5. A description of how the operator will maintain compliance with each of the storage requirements of Rule 62 - 711.540, F.A.C.
6. A copy of the emergency preparedness manual for the facility with a statement of the on site and off site locations where that manual will be maintained.
7. A copy of the fire safety survey
8. A description of how 75% of the annual accumulation of waste tires will be removed for disposal or recycling.

- C. Completed closing plan for the facility as required by Rule 62-711.700(2) and (3), F.A.C.

- D. Attach proof of financial responsibility as requirement by Rule 62-711.500(3) OR a calculation showing that financial assurance documents, currently on file with the Department, are sufficient to assure closing of the waste tire site as well as any other solid waste management facility at that location.
- E. A letter from the land owner (if different from applicant) authorizing use of the land as a waste tire processing facility.
- F. If waste tires will be consumed or disposed of at the facility, attach a description of the other environmental permits that the applicant has for this use, including, permit number, date of issue, and name of issuing agency
- G. The permit fee as required in Rule 62-4, F.A.C.

Part IV-Certification:**A. Applicant:**

The undersigned applicant or authorized representative of BECK'S TIRE SERVICE, INC.
Is aware that statements made in this form and attached information are an application for a
Waste Tire Processor Permit from the Florida Department of Environmental Protection and certifies that
The information in this application is true, correct and complete to the best of his knowledge and belief.
Further, the undersigned agrees to comply with the provisions of Chapter 403, Florida Statutes, and all rules and
regulations of the Department. It is understood that the Department will be notified prior to the sale or legal transfer
of the facility.

 Robert A. Reisig 8/22/2012
Signature of Applicant or Authorized Agent Name and Title Date

B. Professional Engineer registered in Florida.

This is to certify that the engineering features of this waste tire processing facility have been
Designed/examined by me and found to conform to engineering principals applicable to such facilities. In my
professional judgment, this facility, when properly maintained and operated will comply with all applicable statutes of
the State of Florida and rules of the Department. It is agreed that the undersigned will provide the applicant with a
set of instructions for proper maintenance and operation of the facility.

Part II B

Type of Processing Facility

Florida Tire Terminal is a used tire dealer that picks up scrap tires and culls them for reuse. We also buy tires in new and used conditions. The tires that are not useable or repairable are immediately transferred onto trailers that are sent to other recyclers. The location of our disposal locations and methods is explained in Part II-E.

**Part II-E
Disposal Facilities Attachment**

Liberty Tire Recycling
9675 Range Line Road
Port St. Lucie, Florida 34987
St. Lucie County
772.465.0477

FTT ships their steel radial waste whole tires to this company in 53' truck loads. We "live load" the tires to keep our freight costs lower. The term "live load" indicates when a truck is scheduled to arrive at a certain time on a certain day and he is immediately loaded and sent on his way. This usually takes 4 hours to load. This type of procedure dictates that we save approx 500-600 waste steel truck tires to fill a trailer.

Ashberry Tire Recycling
24961 Wages Road
Opp, Alabama 36467
Covington County
334.493.1250

FTT ships their OTR waste tires to this company in 53' truckloads. We also live load these tires for lower shipping costs. We save approx. 200-300 OTR scrap to fill a 53" trailer.

Global Tire Recycling
1201 Industrial Drive
Wildwood, Florida 34785
Sumter County
352.33.2213

FTT ships their Bias Scrap Truck Tires to this company in 53' trailer loads. We live load these trailers and this dictates we save approx. 500 tires for a full load.

Global Tire Recycling
1201 Industrial Drive
Wildwood, Florida 34785
Sumter County
352.33.2213

FTT ships their passenger waste whole tires to this company. These tires are shipped in a 53' trailer that is kept at our dock and is traded out for an empty after it is fully loaded.

These three companies cover our entire waste tire disposal.

Application Supplement Contents

Item # 1- Application Narrative

Item # 2- State of Florida Corporation Filing

Item # 3- A letter is included from the City of Avon PARK, FL. That states that the zoning map dated 03/01/10 is the latest revision available.

Item # 4- A copy of the letter from "The News Sun" stating that we have filed a "Notice of Application" in the local paper of Avon Park, FL.

Item # 5- Land Ownership Information

The Land Owner Information for 400 Feagin St. is as follows.

BECK'S TIRE SERVICE, INC.

4950 Stillwell Ave.

Kansas City, MO 64120

Authorized Agent, Eugene Beck Jr.,

816-241-8512

The Land Owner Information for 301 Feagin St. is as follows.

L & R Land, Inc

11517 Newton St.

Overland Pk., Ks.

Authorized Agent, Robert A. Reisig,

863-452-5788

Item # 6-a- Warranty Deeds- A copy of Warranty Deeds for both 301 Feagin and 400 Feagin St. are included.

Application Narrative, Florida DEP Waste Tire Processor Permit Application.

DEP South District

Part I- General Information.

- A. Applicant Information- This information is very basic and it reveals that Beck's Tire Service is the applicant of record with the address in Avon Park, FL. This section also shows that no enforcement actions have been taken against the Florida location.
- B. Facility Information- This information indicates that Florida Tire Terminal (FTT) is the facility of record. The location coordinates are provided. No construction is currently needed.
 - 1. -The dates of construction are based solely on the date that this application is accepted or rejected. The construction is very low tech with a series of berms being installed to protect against run-off. These berms and there placement were approved by the Local Fire official and were included in the alternative procedures that were approved at the state level. Two rows of barrier block are also slated for installation to form a barrier for a fire lane. This is also shown in the Facility Plan.
- C. Land Owner Information- The facility is actually located on two separate pieces of property, which are adjacent to one another. The landowner information indicates that the applicant of record, BECK'S TIRE SERVICE, INC. owns the property at 400 Feagin St. The property addressed, as 301 Feagin St. is owned by L & R Lands and the appropriate information is included within the application and the Application Addendum under item # 8.
- D. Facility Operator Information- This information indicates that BECK'S TIRE SERVICE is the operator of the facility.
- E. Preparer of Application-This information indicates that Robert A. Reisig in conjunction with Polston Engineering is the preparer of the application

Part II-Operations

A- Facility Type-FTT is a waste tire processor that does not process waste tires. We repair and regroove tires for resale.

B-Type of Facility- This indicates that FTT is a transfer station. FTT buys and is paid for the tires that come into our facility. We then cull the tires and dispose of the bad tires. The good tires are put thru our regrooving and repairing facility.

C & D-Storage-This facility will be limited to 15,000 tires in storage. The figures in the application indicate a maximum of 230.23 tons. These figures were calculated based on available space. The formula used was created by figuring how many truckloads could fit into any given area while still maintaining

compliance with the local fire officials needs. The average truckload weighs approximately 40,000 lbs (20 Tons) and that is what we based the figures on.

E- Disposal Facilities-I have attached a list of four facilities where we ship our waste tires.

F-There are no waste tires processed at FTT and in turn we have no markets for processed tires.

RECEIVED
AUG 28 2012
D.E.P. South District

Part III- Attachments

A- Facility Design

1. Section Map- This map is included in the attachments section at the rear of the application packet
2. Plot Plan- The plot plan is included and contains the following
 - a. The Facility design- the design shows that there are 5 major buildings at the facility. They vary in size from 1800 to 6000 sq. feet.

The main building is approx 4000 sq. feet and this is our main office / finished product building. This is where we store most of the tires that that we sell to users and dealers. The building is made of concrete and wood frame const. and it has a steel roof. The second building is our production building. This building is new in 2006 and replaced an older building of similar size that was lost in Hurricane Charlie in 2004. The new building is approx 6000 sq. ft and it is entirely constructed from steel with a concrete floor. We repair and regroove tires in this building. The third building on property is our service building. This building is approx. 3000 sq. feet and is constructed from wood frame and steel sides and roof. This is where we mount tires on vehicles. We also assemble aircraft tire units in this building. These units are used on roadside mowers. The fourth building on property is an 1800 wood frame building with steel sides and roof. This building is used solely for steel wheel and rim storage. The fifth and last building is apprx 4000 sq. ft. and is constructed of block and wood with a steel roof. One half of this building is leased out for office space and the other half is where we store our new tires and inner tubes.

The facility itself sits on approx 3.5 acres and the surface varies from asphalt to shell and some sandy areas. A 6 ft. fence surrounds it and a block wall borders a large section. There are apprx 5 lean-toos on the property and we use these to store tires out of the weather. There are numerous fire lanes and gates and doors lock all entrances. We take extreme caution to keep the facility mowed and weeded at all times.

- b. Wetlands- There are no wetlands or water bodies within 200 ft. of the facility.
- c. Storm Water- the measures include the existing berms which are indicated on the Facility Plan.
- d. Boundaries- these boundaries are indicated on the Facility Plan.
- e. Wells-There are no wells on the property and no known wells within 200 ft.
- f. Structures- the structures that have been constructed are some shell berms that will help control rainwater runoff. These berms will also prevent runoff in case of a fire. The addition of barrier blocks will also be used to cordon off fire lanes.

- g. Loading and Unloading. There are three main areas for loading and unloading. They are indicated on the Facility Plan
- h. Fire Lanes- There are fire lanes on the east and west sides of the property. The local Fire Official agreed to these lanes and they should give complete access for emergencies. These lanes are indicated on the Facility Plan
- i. Fences and gates- There are numerous gates surrounding the facility and all are controlled by lock and key. These gates and fences are indicated on the Facility Plan.
- j. Disposal Facilities- There are no disposal areas located within the facility

B-Facility Operation- The Facility Operation information is located within the application

C-Completed Closing Plan- The closing plan is located within the application.

D.I have addressed the Financial Assurance issue. Further information can be found on Attached entitled Financial Responsibility in the Application.

E. I have included a letter from the landowner and it is included in the application.

RECEIVED
AUG 28 2012

F. No waste tires will be consumed at the facility.

D.E.P. South District

Part IV- Certification- The application is signed by the Applicant and the Engineer of Record.

Additional Information:

i) Beck's Tire Service Inc. is a corporate legal entity registered with the state of Florida. This annual registration comes in the form of a For Profit Corporation Annual Report that is filed annually by Beck's Tire Svc. Inc. A copy of the 2012 report is included within the application package.

ii) Beck's Tire Service Inc. is the responsible operating authority and it is responsible for the financial affairs of the company and the aforementioned company is registered with the state of Florida and does assume full financial responsibility for the affairs of the company including providing financial assurance for the closure of the facility.

iii) Robert A. Reisig has been authorized by Beck's Tire Svc. Inc. to sign the application. This authorization comes in a letter dated August 6th, 2012 and signed by Eugene Beck Jr. The letter is located at Part III,E-1 in the application package.

iiii) The letter of authorization has been included to indicate that Beck's Tire Service Inc. is incorporated in the State of Florida and that it is registered annually with a form entitled "2012 FOR PROFIT CORPORATION ANNUAL REPORT (AR)."

D.E.P. South District

Dear Mr. Reisig:

The purpose of this letter is to provide verification of the Future Land Use and Zoning designations for Florida Tire Terminal whose property is located at 300 Feagin Avenue and 400 Feagin Avenue within the City of Avon Park (see attached Aerial Photo Map). This letter is in response to a request received by Mr. T.J. Judson on August 10, 2012.

The City of Avon Park Future Land Use and Zoning Maps indicate that the subject property has a Future Land Use designation of **Industrial (I)** and a Zoning designation of **Light Industry (I-1)**.

Avon Park Future Land Use and Zoning Descriptions:

Industrial (I) Future Land Use Description:

The Industrial designation shall be compatible with adjacent land uses, promote a variety of employment opportunities and facilitate a diversified economic base, and promote efficient use of public facilities and services. New industry shall be located in areas with existing industrial land uses and amenities. Public Schools are prohibited within this Future Land Use Map designation. The maximum floor to area ratio for the Industrial future land use designation shall not exceed 1.00.

Light Industry (I-1) Zoning Description:

Section 2.04.02.10 of the Avon Park Land Development Code states that the purpose of the I-1 Zoning District is to provide for a variety of commercial and light industrial activities in areas where such uses will create a minimum of adverse impacts on surrounding properties. Light Industry includes but is not limited to business or office parks and warehousing. Uses permitted within the I-1 Zoning District are detailed in the Table of Land Uses in Section 2.04.01(A) of the Land Development Code. A copy of the sections of the Land Development Code related to the I-1 Zoning District are attached.

If you have any questions or concerns, please contact me at (863) 534-7130 ext. 112.

Sincerely,

Jeff M. Schmucker, Planner

THE NEWS-SUN
2227 U.S. 27 SOUTH
Published three (3) times weekly
SEBRING, HIGHLANDS COUNTY, FLORIDA

RECEIVED

AUG 28 2012

D.E.P. South District

STATE OF FLORIDA,
COUNTY OF HIGHLANDS:

Before the undersigned authority personally appeared Kim Young, who on oath says that she is Business Manager of the News-Sun, a tri-weekly newspaper published at Sebring, in Highlands County, Florida; that the attached copy of advertisement, being a Proof of Publication in the matter of:

NOTICE OF APPLICATION TO FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION; BECK'S TIRE SERVICE D.B.A. FLORIDA TIRE TERMINAL; APPLICATION NO. 0245850-001-WT/02

Was published in said newspaper in the issue(s) of

MARCH 23, 2005

Affiant further says the News-Sun is a newspaper published at Sebring, in Highlands County, Florida, and that the said newspaper has heretofore been continuously published in said County, Florida, Wednesday, Friday and/or Sunday and has been entered as a second class mail matter at the post office Sebring, in said county, Florida, for a period of one year next preceding the first publication of the attached copy of advertisement; and affiant further says that she has neither paid nor promised any person, firm or corporation any discount, rebate, commission or refund of the purchase of securing this advertisement of publication in the said newspaper.

Kim Young, Business Manager

Sworn to and subscribed before me
on 24TH day of March A.D. 2005

NOTICE OF APPLICATION
SUBMITTED TO THE FLORIDA DEPARTMENT
OF ENVIRONMENTAL PROTECTION

The applicants, Beck's Tire Service D.B.A. as Florida Tire Terminal c/o Robert Reisig, Manager, P.O. Box 1733, Avon Park, Florida 33825, announces submittal of an application to the Department for a permit to construct and operate a Waste Tire Processing Facility specifically identified as Florida Tire Terminal.

This proposed project will be located at 400 Feagin Street, Avon Park, Florida 33826.

This application (No. 0245850-001-WT/02) is being processed by the Department and is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at 2295 Victoria Avenue, Suite 364, Fort Myers, Florida. The application is also available for viewing at Florida Tire Terminal, 600 Feagin St., Avon Park, FL. Please call 863-452-5788 to schedule inspection. Any comments or objections should be filed in writing with the Department at this address or mailed to P.O. Box 2549, Fort Myers, Florida 33902-2549. Comments or objections should be submitted as soon as possible to ensure that there is adequate time for them to be considered in the Department's decision on the application.

Fort Myers, FL 33901-3881

From: Robert A. Reisig, President, L & R Lands

L & R LANDS will allow Beck's Tire Service dba Florida Tire Terminal to continue to use the property at 301 Feagin St., Avon Park, FL as a waste tire processor. We have leased the property to Beck's Tire Service dba Florida Tire Terminal on an open-ended lease and we will continue to do so as long as L & R lands retains ownership of said property. The property at 301 Feagin is used primarily for the loading and un-loading of tire-haul vehicles. I as the president of L & R lands have agreed to this usage. I have also included copies of the land ownership records at 301 Feagin St. If you have any questions please call Marc Lang at 816-214-8512

Yours Truly,

Robert A. Reisig

WARRANTY DEED
FROM INDIVIDUAL TO CORPORATION

DEED'S FORM R. L. 34

Manufactured and for sale by The H. & W. S. Green Company
Jacksonville, Florida

This instrument was prepared by
ARTHUR A. ACCORSE, ATTORNEY
P. O. Box 1880, 18 So. Lake Ave.
Aven Park, Florida 32208

This Warranty Deed Made the 18th day of January A. D. 1985 by
RICHARD E. GREEN, a married man,
hereinafter called the grantor, to BECK'S TIRE SERVICE, INC.,

a corporation existing under the laws of the State of Missouri with its permanent postoffice
address at 1026 Hickory Street, Kansas City, Missouri 64101
hereinafter called the grantee;

(Wherever used herein the words "grantee" and "grantor" include all the parties to this instrument and
the heirs, legal representatives and assigns of individuals, and the successors and assigns of corporations)

Witnesseth: That the grantor for and in consideration of the sum of \$ 12.50 and other
valuable considerations: receipt whereof is hereby acknowledged, hereby grants, bargains, sells, conveys, re-
leases, conveys and confirms unto the grantee, all that certain land situate in
County, Florida, viz:

Lot 1 and the North Half of Lot 2 and the East
72 feet of the South Half of Lot 2, Block 34,
TOWN OF AVON PARK, in Section 22, Township 33
South, Range 28 East, Highlands County, Florida,
as shown on the plat thereof recorded in Plat
Book 1, page 58, Public Records of DeSoto (now
Highlands) County, Florida

Subject to easements, restrictions and reservations
of record.

Grantor warrants that the aforesaid property is his
separately owned property and property does not
constitute his homestead.

POOR ORIGINAL

Together with all the tenements, hereditaments and appurtenances thereto in any
wise appertaining.

To Have and to Hold, the same in fee simple forever.

And the grantor hereby covenants with said grantee that the grantor is lawfully seized of said land
in fee simple; that the grantor has good right and lawful authority to sell and convey said land; that the
grantor hereby fully warrants the title to said land and will defend the same against the lawful claims of
all persons whomsoever; and that said land is free of all encumbrances, except taxes accruing subsequent
to December 31, 1984

In Witness Whereof, the said grantor has hereunto set his hand and seal the day and year
first above written.

Signed, sealed and delivered in our presence:

Myself
Richard E. Green

Facility Operation
Part III- B
Cover Page

RECEIVED
AUG 28 2012
D.E.P. South District

**Part III-B-1
Facility Operation**

1.) FTT is a tire dealer that specializes in used tires. We purchase and get paid to procure our rough stock from which we process and sell our finished product. We sell used tires by repairing, regrooving, and mounting the tires. We also wholesale to other tire dealers throughout the state.

We receive our waste tires by collecting them throughout the state and bringing them to our Avon Park facility. We unload them at our unloading dock and place them into 5 categories.

The categories include a) Bias Truck, b) Radial Steel Truck, c) Passenger, d) OTR, and f) Reusable Tires. The first 4 categories are all waste and are stored on or adjacent to the loading dock. These waste tires are shipped out when a full truck load is accumulated. The last category is the reusable group and they are stored until processed. These are stored adjacent to our production facility.

RECEIVED
AUG 28 2012
D.E.P. South District

Part III-B-2
Facility Equipment

2.) FTT does not process whole tires into processed tires. This non-processing format makes it unnecessary to have processing equipment.

Part III-B-3
Waste From Processing

3.) FTT ships all its' tires as whole tires and in turn we have no waste from processing.

Part III-B-4
Maximum Daily Throughput

4.) FTT has the capacity to transfer 20 tons a day. Our current throughput is actually closer to 7 tons a day.

Part-III-B-5 Storage Requirements Compliance

I have included a plot plan with this narrative showing the approximate storage capacities of our designated storage cells. The total current units in storage totals 4400 units as of 03-15-06. These 4400 units totaled equal approximately 230.23 tons. These 4 cells are shown on the storage cell plot plan included. The Avon Park Fire Marshall concluded that these cells would be appropriate for tire storage. This approval is outlined in the Avon Park Fire Control Survey written on Nov 9th, 2004. In Conjunction with the survey we also requested and received an approval for "Alternate Procedures" in relationship to rules 62-711.540(2)(e), 62-711.540(2)(g), and 62-711.540(3)(c). This alternative procedure approval provides F.T.T. with the ability to store tires on the current facility. The State of Florida Dept. of Environmental Protection Division of Waste Management in Tallahassee, Fl. gave this approval and a copy is included.

Part III B 6-8

6.) Emergency Preparedness Manual. A copy is attached and is entitled "FTT Emergency Preparedness Manual".

7.) Fire Safety Survey. This survey was prepared in Oct. of 04 and a copy is attached

8.) In calendar year 2011 FTT shipped 476 tons of Waste Tires and we sold 255 tons as used tires. We currently have in our inventory of used tires 200 tons of waste tires which we save for rough stock. These figures equate to a 75% or more removal or transfer rate.

Avon Park Fire Department

Fire Prevention

January 10, 2008

Bob Reisig
Florida Tire Terminal
400 Feagin Avenue
Avon Park, FL 33825

Subject: Fire Control

Mr. Reisig,

In the original plan for your business a complete fire alarm system was listed. This was based on the assumption that an alarm system was already in place and only a few devices would need to be added. The Fire Prevention code does not require an alarm in your facility so this requirement will be removed. I do encourage you to install a system that will provide early detection and notification of the fire department because of the nature of the commodities stored and sold at the facility.

One item that has not been covered is a key safe that will allow fire department access to all buildings without having to wait for a key holder to arrive. In the event of an emergency, rapid access can reduce the impact and damage to your business.

I am providing code language from the 2008 Fire Prevention code for guidance. This will become affective October 1, 2008. This should allow you to maintain an acceptable level of safety in your business.

If you have any questions, pleas contact me at 863-452-4401

Sincerely,

David Cloud

David Cloud
Firesafety Inspector

**FLORIDA TIRE TERMINAL
EMERGENCY PREPAREDNESS
MANUAL
&
SAFETY MANUAL**

Edited 8/1/2012

Part III-B-6
EMERGENCY PREPAREDNESS MANUAL &
SAFETY MANUAL
Pg.-1

SECTION-I Planning

A) Fire Prevention

1-Cleanliness- all work areas and storage areas will maintain a clean atmosphere.

- a) Sweeping aisles at the end of a work day
- B) Put away tools and unfinished work.
- c) Clean up in work area by removing any papers, cups, rags or throw away debris.
- d) All aisles will be kept free of tires.

2-Safety- all employees will maintain themselves in a safe manner.

- a) Employees will wear safety glasses and gloves when working on tires
- b) Employees will take note of fire extinguishers and fire exits at all times.
- c) Employer will post exit signs and extinguisher locations in all work areas.
- d) Employer will provide maps with quickest exit routes for all buildings in case of fire.
- e) Employer will provide appropriate safety equipment when employees are working with hazardous materials. I.e.: respirators, safety glasses, gloves, chemical suits, and

3-Emergency Notification-

- a) Employer will establish and maintain a list of 4 emergency coordinators and their phone numbers to respond to emergencies
- b) Employer will provide phone numbers for the fire dept. and for emergency coordinator in the appropriate areas within the business premises.
- c) Employer will educate each employee as to the location of fire pull stations.

4-Fire Survey-APFD-1-08

- a) Employer will abide by all the provisions stated in the above Fire Survey.

Section-2 Equipment

A) Fire Equipment

1- Fire Extinguishers-

- a) All extinguishers will be maintained monthly and their locations will be marked

2- Hazardous Fuels and Materials

- a) All fuel and explosive materials will be stored in proper flames proof cabinets

3- Safety Equipment

- a) All personal safety equipment will be stored in the office
And employees will be responsible for asking for it when it is needed.

4-Fire Warning Equipment

- a) FTT will be responsible for installing and maintaining the proper smoke alarms and warning devices proposed in the "Fire Survey" dated November 9th 2004.

5-Training

- a) All FTT employees attend a fire safety training class on an annual basis.
- b) The class will be provided by local fire safety personal and will include.
 - I) - Fire extinguisher training
 - II) -Proper exit techniques
 - III) – Employees will study exit routes

Section-3 Emergency Reaction

A) Fire (early stages)

- 1-Employees should proceed to extinguish small fire while maintaining an exit pathway.
- 2-Employees should
Exit while activating fire pull station
- 3-Employees should dial 911 from safe location with easy exit pathway.
- 4-Employees proceed to designated meeting spot where a head count will be taken by lead manager.
- 5-Employees should note whether all visitors have exited from buildings.

B) Fire (late stages)

- 1-Employees should exit and meet in designated areas
Wilhite St. on
- 2-Fire pull station should be activated during exit procedure
- 3-Employees should dial 911 from safe location with easy exit pathways
- 4-Employees should take note whether all visitors have exited from Buildings

EMERGENCY RESPONSE EQUIPMENT

1) Fire Extinguisher Locations

The following diagrams show where the 11 monitored fire extinguishers are located.

These devices are monitored monthly to confirm there that they are charged up.

2)-First Aid Station Location-

The first aid supplies are located in the sales office. It is available to any employee who may need them.

3)- Skid Steer Loaders-

These loaders may be used in the event of a major catastrophe or falling of debris.

FIRE CONTAINMENT PROCEDURES

- 1-THE FLOW OF OILY RESIDUE WILL FLOW TOWARDS THE SOUTH WALL AND WILL BE CONTAINED THERE.**
- 2.THE FLOW COULD MOVE NORTHWARD WHERE THE RETENTION PONDS ON THE NORTH SIDE WILL CONTAIN THERE.**

RESIDUE CLEANUP

- 1-WE WILL USE THE LOADERS WITH BUCKETS TO PUT THE RESIDUE INTO THE PROPER CONTAINERS FOR DISPOSAL.**

STATE OF FLORIDA DEPARTMENT
OF ENVIRONMENTAL PROTECTION

IN RE: FLORIDA TIRE TERMINAL
REQUEST PURSUANT TO
FLORIDA ADMINISTRATIVE CODE
RULE 62-701.310

CASE NO. SWAP-04-02

APPROVAL OF ALTERNATE PROCEDURES

This cause comes before me upon receipt of a request by Florida Tire Terminal. for the approval of alternate procedures and requirements under Rule 62-701.310, Florida Administrative Code (F.A.C.), for use of an alternate procedure for managing waste tires. The petitioner requests that an exception be granted from compliance with provisions of Rules 62-701.200 and 62-711.530, F.A.C., which require a waste tire processing facility to cut, burn, or otherwise alter waste tires so that they are no longer whole. The petitioner also requests an exemption from the following rules regarding the storage of waste tires:

- Rule 62-711.540(2)(e), F.A.C., which requires fire walls in certain locations;
- Rule 62-711.540(2)(g), F.A.C., which requires sprinkler systems in certain locations in lieu of fire walls; and
- Rule 62-711.540(3)(c), F.A.C., which requires a 50 foot fire lane around each waste tire pile.

RECEIVED
AUG 28 2012
D.E.P. South District

FINDINGS OF FACT

1. The petitioner currently operates a business that procures, repairs and sells used tires, retreaded, regrooved and new tires in Avon Park, Highlands County, Florida. The business receives shipments of used tires and sells used tires and retreaded or regrooved tires to the public. The petitioner has stated that an inventory of 15,000 tires is necessary to support the projected level of business.

2. The petitioner maintains some equipment to alter waste tires in preparation for retreading or to regroove them, but does not maintain equipment to cut, shred, burn, or otherwise alter waste tires so that they are no longer whole. However, the petitioner's operation does result in the removal of waste tires from the solid waste stream in Florida and the recycling, reuse, or disposal of those tires.

3. The Avon Park Fire Department has inspected the facility and set out fire control guidelines for the petitioner to follow to comply with NFPA Standard 231D, Standard for Storage of Rubber Tires, including the exceptions for existing buildings. This standard contains requirements, among others, that are equivalent to or more stringent than those found in Rules 62-711.540(2) and (3), F.A.C. In addition, the requirements imposed by this standard provide fire protection equivalent to that found in Rule 62-711.540(3)(c), F.A.C. The Avon Park Fire Department has notified the applicant it will require him to adhere to these standards.

CONCLUSIONS OF LAW

Rule 62-701.310, F.A.C., authorizes the approval by the Department of alternate procedures and requirements concerning solid waste management facilities. Based upon the above findings and the information contained in the Request for Alternate Procedures the Department makes the following conclusions.

1. The petitioner manages waste tires, which are defined in Rule 62-701.200(134), F.A.C., as including used tires. The petitioner is therefore prohibited by Rule 62-711.400, F.A.C., from maintaining more than 1500 used tires except as an integral part of a waste tire processing facility.
2. A waste tire processing facility is defined in Rule 62-701.200(137), F.A.C., as a site where equipment is used to recapture reusable by-products from waste tires or to cut, burn, or otherwise alter waste tires so that they are no longer whole. The petitioner's facility contains some equipment for altering tires in preparation for retreading or to regroove them, but no equipment that would alter them so they are no longer whole. However, the petitioner has demonstrated that its facility serves the same purpose as would a waste tire processing facility that does use equipment to alter waste tires so that they are no longer whole, and will provide an equal degree of protection for the public and the environment. The petitioner has also demonstrated that its facility is expected to be at least as effective in removing waste tires from the solid waste stream as would a facility containing processing equipment. Therefore, the

Department concludes that the petitioner's facility should be regulated as a waste tire processing facility under Chapter 62-711, F.A.C.

3. The Department also concludes that compliance with NFPA Standard 213D, Standard for Storage of Rubber Tires, as required by the Avon Park Fire Department in its letter of November 9, 2004, will provide an equivalent degree of fire protection as would strict compliance with Department rules. For this reason, the relief requested from the provisions of Rules 62-711.540(2)(e), 62-711.540(2)(g), and 62-711.540(3)(c), F.A.C., is warranted.

Upon consideration of the foregoing it is therefore ORDERED that the request for alternate procedures from Rules 62-701.200, 62-711.530, 62-711.540(2)(e), 62-711.540(2)(g), and 62-711.540(3)(c), F.A.C., is GRANTED, so that the petitioner's facility may be considered a waste tire processing facility, subject to the following conditions:

CONDITIONS

1. This Order does not authorize the petitioner to operate the facility or to maintain more than 1500 used tires at the facility. Instead, the petitioner must obtain a separate waste tire processing facility permit from the South District Office of the Department. Failure of the petitioner to obtain such a permit may result in enforcement actions for operating a waste tire processing facility without a permit.

2. The petitioner shall submit a permit application for a Waste Tire Processing Facility that conforms to Chapter 62-711, F.A.C., to the South District Office of the Department within 30 days after receipt of this Order. If such a permit is issued, this

Order will be incorporated into that permit and will be reviewed at the time of permit renewal. However, unless the Department takes affirmative action to revoke or modify this Order, it will have an unlimited duration.

3. The petitioner may apply for a storage limit not to exceed 15,000 used tires. The storage limit shall not exceed the quantity for which financial assurance is provided as part of the waste tire processing facility permit. The facility shall not accept any waste tires if it has reached its permitted storage limit.

4. The petitioner shall not receive any waste tires if the tire selling business closes for any reason, unless the petitioner can demonstrate that the permitted storage limit for this facility will not be exceeded and that the proof of financial assurance is sufficient to close the site.

5. The petitioner shall comply with the fire control requirements set forth in the November 9, 2004 letter from the Avon Park Fire Department, which among other things, requires compliance with the NFPA Standard 231D, Standard for Storage of Rubber Tires.

NOTICE OF RIGHTS

Pursuant to Section 403.815, F.S., and Rule 62-110.106, F.A.C., you are required to publish at your own expense the enclosed Notice of Proposed Agency Action. The notice shall be published one time only within 30 days in the legal ad section of a newspaper of general circulation in the area affected. For the purpose of this rule, "publication in a newspaper of general circulation in the area affected" means publication in a newspaper meeting the requirements of Sections 50.011 and 50.031,

F.S., in the county where the activity is to take place. Where there is more than one newspaper of general circulation in the county, the newspaper used must be one with significant circulation in the area that may be affected by the permit. If you are uncertain that a newspaper meets these requirements, please contact the Department at the address or telephone number listed below. You must provide proof of publication to the Department at the address listed below within seven days of publication.

In the alternative, you may include the following language in the notice of proposed agency action for the waste tire processing facility permit, provided that the public notice allows 21 days for the filing of any petition:

The Department of Environmental Protection also gives Notice of its intent to grant approval of alternate procedures pursuant to Rule 62-701.310, Florida Administrative Code (F.A.C.), to Florida Tire Terminal, as part of the proposed permit. The approval is for an alternative to Rules 62-701.200, 62-711.530, 62-711.540(2)(e), 62-711.540(2)(g), and 62-711.540(3)(c) F.A.C., and will authorize Florida Tire Terminal, to operate a waste tire processing facility that does not cut, burn, or otherwise alter waste tires so that they are no longer whole, subject to several specific conditions.

The Department's Intent to Grant Approval of Alternate Procedures shall become final unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, F.S., before the deadline for filing a petition. The procedures for petitioning for a hearing are set forth below.

A person whose substantial interests are affected by the Department's proposed agency action may petition for an administrative proceeding (hearing) under Sections 120.569 and 120.57, F.S. The petition must contain the information set forth below and must be filed (received) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

Petitions by the applicant or any of the parties listed below must be filed within 21 days of receipt of this written notice. Petitions filed by other persons must be filed within 21 days of publication of the notice or receipt of the written notice, whichever occurs first. Under Section 120.60(3), F.A.C., however, any person who asked the Department for notice of agency action may file a petition within 14 days of receipt of such notice, regardless of the date of publication. The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Department's action is based must contain the following information:

(a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department File Number and the county in which the project is proposed;

(b) A statement of how and when each petitioner received notice of the Department's action or proposed action;

(c) A statement of how each petitioner's substantial interests are or will be affected by the Department's action or proposed action;

(d) A statement of all material facts disputed by petitioner or a statement that there are no disputed facts;

(e) A statement of the ultimate facts alleged, including a statement of the specific facts which the petitioner contends warrant reversal or modification of the Department's action or proposed action;

(f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the Department's action or proposed action; and

(g) A statement of the relief sought by the petitioner, stating precisely the action the petitioner wants the Department to take with respect to the Department's action or proposed action.

A petition that does not dispute the material facts on which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be

different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available in this proceeding.

Any party to this order has the right to seek judicial review of it under Section 120.68, F.S., by filing a notice of appeal under Rule 9.110, Florida Rules of Appellate Procedure, with the clerk of the Department in the Office of General Counsel, Mail Station 35, 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice of appeal must be filed within thirty days after this order is filed with the clerk of the Department.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF PROPOSED AGENCY ACTION

The Department of Environmental Protection gives Notice of its Intent to grant approval of alternate procedures pursuant to Rule 62-701.310, Florida Administrative Code (F.A.C.), to Florida Tire Terminal for operation of a Waste Tire Processing Facility at 400 Feagin Street, Avon Park, Highlands County, Florida. This facility sells new tires, used tires, retreaded and regrooved tires to the public but does not process tires into pieces. The applicant requests that an exception be granted from compliance with provisions of Rules 62-701.200, 62-711.530, 62-711.540(2)(e), 62-711.540(2)(g), and 62-711.540(3)(c) F.A.C., which require a waste tire processing facility to cut, burn, or otherwise alter waste tires so that they are no longer whole and to store tires in a certain manner.

The Department's file on this matter is available for public inspection during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the Division of Waste Management, Solid Waste Section, 2600 Blair Stone Road, Tallahassee, Florida 32399-2400.

A person whose substantial interests are affected by the above proposed agency action may petition for an administrative determination (hearing) under Sections 120.569 and 120.57, Florida Statutes (F.S.). The petition must contain the information set forth below and must be filed (received) in the Department's Office of General Counsel, Marjory Stoneman Douglas Building, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within 21 days of publication of this notice or receipt of the written notice, whichever occurs first. The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only at the discretion of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.

A petition that disputes the material facts on which the Department's action is based must contain the following information:

- (a) The name, address, and telephone number of each petitioner, the applicant's name and address, the Department File Number and the county in which the project is proposed;
- (b) A statement of how and when each petitioner received notice of the Department's action or proposed action;
- (c) A statement of how each petitioner's substantial interests are affected by the Department's action or proposed action;

(d) A statement of all material facts disputed by petitioner or a statement that there are no disputed facts;

(e) A statement of facts which the petitioner contends warrant reversal or modification of the Department's action or proposed action;

(f) A statement of which rules or statutes the petitioner contends require reversal or modification of the Department's action or proposed action; and

(g) A statement of the relief sought by the petitioner, stating precisely the action the petitioner wants the Department to take with respect to the Department's action or proposed action.

A petition that does not dispute the material facts on which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Department's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Department have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above

In accordance with Section 120.573, F.S., the Department advises that mediation is not available in this case as an alternative to filing a petition for an administrative determination.

**Part III-C-1
Completed Closing Plan**

- A) Stop access to site-All gates and doors will be locked preventing public access to site.
- B) Notices will be posted on gates and doors with forwarding number for public waste authorities.
- C) The county and state DEP will be notified.
- D) All waste tires and residuals will be removed to an authorized waste tire recycler.
- E) All solid waste will be removed to a permitted solid waste management facility
- F) A closing schedule will be generated based on factors present at the time of closing.
- G) The site will be rehabilitated if any contamination is present. Due to the fact that no tires are processed on site there should be no hazardous waste residuals present.
- H) Financial assurance will be provided

Note: A closing cost estimate has been included based on the most recent inventory taken on 01-25-12. The closing cost figures and inventory are attached to this page.

Closure Cost Estimate
for
Florida Tire Terminal Facility
400 Feagin St.
Avon Park, FL 33825
Revised on August 4th, 2012

If a closing should have to occur at the Florida Tire Terminal facility in Avon Park, FL, the following costs would apply. Florida Tire Terminal has a letter from Emanuel Tire Company (attached) stating the cost to load and remove all tires is \$110.00/ ton.

The actual waste tire quantities on hand and the weights associated with each category are the results of an inventory taken on 1/25/12 in cooperation with Polston Engineering. These figures indicate the maximum capacities of the various tire storage cells that are indicated on the Facility Plan.

Passenger Tires- 31 units at 25 lbs/unit= 775 lbs which is equivalent to .38 Tons.

Light Truck Tires- 1092 units at 35 lbs/unit = 38,220 lbs which is equivalent to 19.11 Tons.

Truck Tires- 1437 units at 120 lbs/unit = 172,440 lbs which is equivalent to 86.22 Tons/.
114.60 Tons

Large Truck Tires- 1211 units at 150 lbs/unit= 181,650 lbs which is equivalent to 90.82 Tons.

The total of waste tires equals 196.53 Tons.

The following calculation applies.

196.53 tons of waste tires x \$110.00 = \$21,618.30

The 196.53 tons represents 3,770 total units, which is well below the maximum 15,000 maximum units that are agreed to in the alternative procedures plan but maximum capacities will vary by the size of the tires inventoried.

This figure of \$21,618.30 represents the total closing cost using 110.00 as the per ton cost to remove the tires.

Attention: Mr. Robert A. Reisig

Subject: Facility Clean Up

Dear Mr. Reisig:

Should a total facility clean up is ever needed at the Florida address listed above, the cost would be as follows: Emanuel Tire Company would provide loading and unloading of all remaining tires. These tires would be transported and shredded at a state licensed facility at a cost of \$110.00 per ton.

I thank you for the opportunity to quote your business and should you have any further questions or concerns, please feel free to contact me at the above phone number.

Sincerely,

From: Eugene Beck Jr., Pres., BECK'S TIRE SERVICE, INC.

The purpose of this letter is to confirm that BECK'S TIRE SERVICE, INC is the responsible operating authority of the Florida Tire Terminal Facility at 400 Feagin St., Avon Park, Fl. I as president and owner of the aforementioned company assume full responsibility for the financial affairs of the facility. BECK'S TIRE SERVICE, INC. will provide financial assurance for closure of the Florida Tire Terminal facility.

BECK'S TIRE SERVICE, INC. is legally incorporated in the State of Florida, it files an annual report and a copy is included.

BECK'S TIRE SERVICE, INC. authorizes BECK'S TIRE SERVICE, INC. dba Florida Tire terminal to use the land at 400 Feagin St., Avon Park, Fl. as a Waste Tire Processor. BECK'S TIRE SERVICE, INC. also authorizes BECK'S TIRE SERVICE, INC. dba Florida Tire Terminal to remain in business at the aforementioned location. Copies of property ownership records showing BECK'S TIRE SERVICE, INC. as landowner has been included with this application.

I also grant authority to Robert A. Reisig to be the facility contact person and the authorized person to sign the application.

Sincerely,

Eugene H. Beck Jr.
President

Part III-F-1
Other Waste Tire Consumption

1) No tires will be consumed at the facility and therefore no other environmental permits have been issued.
