RE: First Request for Additional Information (RAI)
Petition for Waiver of Rule 62-711.500(3), Received June 21, 2017
OGC Number 17-0865
Facility Name: American Tire Recycling Group LLC
Facility Address: 3551 NW 116th Street, Miami, Florida 33167
Facility ID No.: 99254

Dear Mr. Reviati:

This is to acknowledge receipt of the petition submitted by AMEC Foster Wheeler E&I Inc., on behalf of American Tire Recycling Group LLC on June 21, 2017 for a waiver from Rule 62-711.500(3), Florida Administrative Code (F.A.C.). Pursuant to Rule 62-711.500(3) F.A.C. owners or operators of waste tire sites are required to provide closing cost estimates for the quantity of waste tires or the quantity of waste tires that they are permitted to have on their site, whichever is greater. The closure cost estimates are required include the additional processed material as part of the closure process.

The petition for waiver indicated that the addition of processed material as part of the closure cost estimates/financial assurance calculation will place a financial burden on the facility. Upon review of your petition, the Department has determined that additional information is needed to make the petition for waiver complete. Please provide the following information in order to complete your petition:

1. Please submit updated closure cost estimates that contain that the additional processed material to be included as part of the closure process. Please include applicable supporting documentation provided by a third party on a per unit basis. Any quantity estimates should be certified by a Professional Engineer.

2. No significant facts or supporting documents were provided that demonstrated a substantial hardship to the facility. Please submit detailed information as applicable that the addition of processed material to be included as part of the closure cost estimates (financial assurance calculation) will place a substantial hardship on the facility. This information should include, but not be limited to, estimated additional cost estimate-impact analyses and projections and other documents that can be used by the Department to determine and/or verify the increased financial burden to be incurred by the facility.

Please submit the items listed above by September 19, 2017. If necessary, you may request an extension up to 90 additional days. If neither the information nor a request for an extension is received by that date your petition may be denied. If you revise your project after submitting the initial petition, please contact us as soon as possible.

We appreciate your cooperation. If you have questions, please contact me at (850) 245-8856.

Sincerely,

James J. Jarmolowski, P.G.
